## 1971 CENSUS

### Programme of Census Reports

1. **A Preliminary Report** on the 1971 Census was published in October, 1971, containing a brief statistical commentary and provisional figures of the population, private dwellings and private households for all local authority areas (counties, county boroughs, municipal boroughs, urban and rural districts) and population figures for small towns and villages with 50 or more houses but having no defined boundaries.

2. **County Reports**

There were reports for each of the Counties of Fermanagh, Tyrone, Londonderry (including Londonderry County Borough), Armagh, Down, Antrim and the County Borough of Belfast. The tables gave figures for counties, local authority areas, wards, district electoral divisions and towns and villages with 50 or more houses. The subjects covered were population and area (hectares); sex, age and marital condition; birthplace; religion; private dwellings, households, tenure and amenities; private motor cars and garaging; economically active persons and their sex and occupational status.

3. **Summary Tables**

These tables gave summaries of the information contained in the County Reports for Northern Ireland. Additionally, this report gave statistics covering the same subjects included in the County Reports for the new local authority areas created under the Local Government (Boundaries) Act (Northern Ireland) 1971, and which became functional on 1st October, 1973.

4. **Housing and Household Composition Tables**

The Housing Tables contain tabulations, not covered by the County Reports, on dwellings, households, tenure, household amenities, cars and garaging. Most tables refer to Northern Ireland but some tables include figures for local authority areas. The Household Composition Tables provide information on the composition and social and economic characteristics of households.

5. **Economic Activity Tables**

The Economic Activity Tables will give statistics of the occupied population based on their personal occupation and the employed population classified according to the branches of industry in which they are employed with reference to age, marital condition, employment status, socio-economic group, etc. Most tables will refer to Northern Ireland but some tables will cover local authority areas.

6. **Workplace and Transport to Work Tables**

These tables will contain details of the resident population and the population employed in each area, the main workplace movements from one area to another and the main means of transport to work used for such movements.

7. **Migration Tables**

These tables will give statistics of the numbers and characteristics of people who changed their usual residence in the year or in the five years before Census day with details of their age, sex, marital condition, area of previous residence; and of the number and characteristics of migrant households.

8. **Religion Tables**

The Religion Tables will give, by the main religious denominations, details of the people by sex, age, marital condition, occupation, industry and socio-economic group; and the numbers and characteristics of households.

9. **Education Tables**

These tables will give details of the age, sex, occupation and industry of those people who had obtained any academic or vocational qualification and details of the type, level and subject of the qualification held.

10. **Fertility Tables**

The Fertility Tables will give statistics derived from information supplied for married women under 60 years of age at Census about the date of marriage and the number and spacing of children born alive to them in marriage.

## HOUSING AND HOUSEHOLD COMPOSITION TABLES

### General Explanatory Notes

The tables in this report deal with dwellings, private households and the composition of private households.

The tables concerned with dwellings give particulars of their size (i.e. number of rooms), tenure and type. The tables relating to private households contain information according to the number of persons in them, the number of rooms occupied, the tenure of the accommodation, density of occupation, availability of certain amenities and the number of cars owned or used exclusively by members of the household. In a number of instances separate figures are given for households in shared dwellings.

Details are also given of the population in non-private establishments such as hotels, hospitals, homes for the aged, etc. These persons are classified by sex, age, marital condition and type of establishment in which they were enumerated.

The household composition tables (Tables 20-33) contain statistics on the characteristics, social and economic composition of private households. Such aspects as the number of persons, earners and dependent children are given. Special components of households such as families, married couples, etc., are detailed. Some tables refer to a selected member of the household—either the chief economic supporter or the head of the household.

**Census Population**

The 1971 Census population comprises all persons, irrespective of their usual address or nationality, who spent census night in the area of enumeration. Members of the Armed Forces (including those of Commonwealth and foreign countries except personnel aboard foreign naval vessels) are included. Persons travelling on census night were enumerated with the population of the district in which they arrived the next day unless they had already been enumerated elsewhere. Persons on vessels at moorings or anchorages in Northern Ireland waters or on board ships on coastwise voyages to Northern Ireland ports were counted as part of the population of the district containing the mooring, anchorage or arrival port. (The enumerated population excludes persons who, although usually resident in the area, spent census night elsewhere. People on night work were regarded as present in their homes for census purposes).

**Persons included on census forms**

Heads of private households and persons responsible for completing the census forms for non-private establishments were instructed to give particulars for:—

1. each person who spends Census night 25/26th April 1971 in this household/establishment, and
2. each person who arrives on Monday 26th April and has not been included on a census form elsewhere.

The census enumeration forms (except the special forms used for the enumeration of Service personnel stationed in naval, army or air force establishments, other than those living in married quarters) contained the following question:—

If the person usually lives here, write 'Here'

If not write the person's usual address

The persons regarded as having their usual address in the area of enumeration include:

(i) Persons enumerated in their own homes, and those enumerated in, and having a settled residence in private lodgings, boarding houses and hotels.

(ii) Resident domestic staff enumerated at their place of work.

(iii) Resident staff and persons who were shown to be permanent inmates of homes for old people, homes for terminal care, homes for handicapped persons and homes for persons requiring special care.

(iv) Persons with no fixed address and persons for whom usual addresses were not stated and which could not be assumed for the census returns.

School children and students living away from home during term time were required to give their home addresses. Members of H.M. Forces not enumerated on the special Forces forms had to give the addresses of their married quarters or other home addresses. Merchant seamen enumerated on vessels and usually living aboard ship were assigned to the countries in which the ships were registered.

For the purpose of housing tables the answers to the usual address questions were used to determine whether a person was a resident in the household or a visitor.

**Population covered in this Report**

All persons enumerated at the census, including visitors to Northern Ireland, are included in Tables 1-21. Visitors, however, are excluded from the Household Composition tables (Tables 22-33).

**Age**

Age is the completed years of age at census date and was calculated from the information given in reply to the question on date of birth.

**Pensionable Age**

Pensionable age is the minimum age at which a person may receive a National Insurance Retirement Pension—60 for women and 65 for men.

**Dwellings**

Dwellings are classified on the basis of instructions issued to the Census enumerators and which are summarised as follows:—

Dwellings were normally private dwelling houses, bungalows, including prefabricated bungalows provided by a local authority, or flats with independent access to the street or to a common staircase or hall. Where houses or other buildings had been adapted to provide residental accommodation in smaller units, these smaller units were regarded as dwellings if they were structurally separate, i.e., if such a unit had a separate front door to the street, or if access to the main door was gained by means of a common staircase or landing. In order for such a unit to count as a dwelling it also had to be self-contained, allowing movement between its rooms internally without making use of the common staircase or landing and the household arrangements, viz., kitchen, bathroom and water closet were not shared with the occupants of another unit of accommodation in the building. Bed-sitting rooms (sometimes called flatlets) were not counted as separate dwellings.

**An occupied dwelling** is one in which at least one household was enumerated on census night.

**An occupier absent dwelling** is one in which at least one household usually or occasionally lives, but was absent on census night.

**A vacant dwelling** was one which was fit or ready for habitation but was awaiting occupancy—this type of dwelling would invariably be unfurnished. Derelict or uninhabitable dwellings were ignored by the census enumerators.

**Separate dwellings within non-private establishments**

In these premises if a group of people were regarded as forming a private household their accommodation was regarded as constituting a dwelling even if it was not structurally separate and had access to the street only through the hotel, hospital, etc. Houses attached to hotels, hospitals, etc., were only regarded as dwellings if they were occupied by private households: if occupied by hotel guests or hospital patients they were counted as part of the non-private establishment. Married quarters in defence establishments were counted as dwellings without exception.

**Non-permanent dwellings**

Caravans or mobile structures and such non-permanent structures as huts, shacks, tents, etc., were treated as dwellings if they were some person's usual residence on census night. If such structures were vacant they were ignored by the enumerators.

**Shared dwellings**

A shared dwelling is a dwelling occupied by more than one private household. Whether or not a household shared a dwelling was ascertained by the enumerator. Households in shared dwellings are shown separately in some tabulations.

**Private households**

The private household is the basic unit of enumeration in the census. A private household was defined as:—

(a) any person living alone and providing his or her own meals; or
(b) any group of persons, whether related or not, who live together partaking of meals prepared together and benefiting from a common housekeeping.

A boarder having at least one meal (breakfast counts as a meal for this purpose) a day with the household counts as a member of the household. A lodger taking no meals with the main household counts as a separate one-person household, even if he shares kitchen and bathroom.

A person or a group of people living in a non-private establishment were treated as a separate household if they were either:—

(a) a family who does not normally depend on the establishment for the provision of meals, or
(b) a person or group for whom the establishment does not provide any daily meals.

A private household had to have the exclusive use of at least one room. If two people shared one room, although each may have had separate catering arrangements and did not have exclusive use of at least one other room, they were treated as one household.

**Rooms**

The following question and notes were included on the Census H form for private households:—

How many rooms are there in your household's accommodation? .....

Do not count
Bathrooms and toilets,
small kitchens less than 6 feet by 6 feet,
sculleries not used for cooking,
closets, pantries and storerooms,
landings, halls, lobbies or recesses,
offices or shops used solely for business purposes.

Note
A large room divided by a sliding or fixed partition should be counted as two rooms.
A room divided by curtains or portable screens should be counted as one room.

In unshared dwellings the head of the household completed the answer to this question. In shared dwellings, the enumerator was instructed to enquire of each household in the dwelling if any room was shared by another household. If any room was shared by two or more households he was further instructed to check the answer to the question and, if necessary, alter it to show the extent of the sharing.

In the tables classifying households by rooms occucupied, any room shared by two or more households is allocated to one (usually the main) household to avoid the use of fractions and to ensure that the total number of rooms in the dwelling is not altered.

The enumerator provided an estimate of the number of rooms in vacant accommodation and for accommodation from which the occupier was absent on census night.

The 1971 Census definition of 'room' included all kitchens, provided they were at least 6 feet wide, whereas, at the 1961 and 1966 censuses kitchens were only counted if regularly used for meals.

**Density of Occupation**

The density of occupation of a household is the ratio of the number of persons in the household to the number of rooms occupied by the household. The following ratios of density are used:—
over $1\frac{1}{2}$ persons per room
over 1 and up to $1\frac{1}{2}$ persons per room
over $\frac{3}{4}$ and up to 1 person per room
$\frac{1}{2}$ and over and up to $\frac{3}{4}$ persons per room
less than $\frac{1}{2}$ person per room.

**Tenure**

Heads of households were required to indicate, under the following headings, how they occupied their accommodation:—

| | | |
|---|---|---|
| (1) | | As an owner occupier (including purchase by mortgage) |
| (2) | | By renting it from a local or public authority |
| (3) | | As an unfurnished letting from a private landlord or company |
| (4) | | As a furnished letting |
| (5) | | In some other way |

(Please give details, including whether furnished or unfurnished):

.....

If more than one box was ticked the census staff decided the most appropriate answer, and in the absence of any further information assigned to the lowest numbered category. If answer five applied and it was indicated that the accommodation was rented with a farm, shop or other business premises, or occupied by virtue of employment, the tenure was classified as rented unfurnished from a private landlord, unless furnished was specified, when the tenure was treated as rented furnished.

The tenure of a shared dwelling was classified according to the tenure stated by the main household, the latter being identified on the basis of a graded list of tenures, 'owner occupied' taking precedence over 'rented' and 'rented unfurnished' taking precedence over 'rented furnished'.

**Household Amenities**

The amenities on which information was collected in respect of each private household are listed below. The householder was required to indicate whether individual amenities were used by the household only, shared with another household or were not available:—

(a) A cooker or cooking stove with an oven;

(b) A kitchen sink permanently connected to a water supply and a waste pipe;

(c) A fixed bath or shower permanently connected to a water supply and a waste pipe;

(d) A hot water supply (to a washbasin, a kitchen sink, or bath, or shower) from a heating appliance or boiler which is connected to a piped water supply;

(e) A flush toilet (W.C.) with entrance inside the building;

(f) A flush toilet (W.C.) with entrance outside the building.

If part (e)—flush toilet with entrance inside the building—or part (f)—flush toilet with entrance outside the building—was unanswered, with "yes" to the other part, the unanswered part was assumed not to be available.

**Cars and Garaging**

The head of each private household was asked the following question:—

(a) How many cars and vans are normally available for use by you or members of your household (other than visitors)?

If none, write 'None'

Note:

Include any provided by employers if normally available for use by you or members of your household, but exclude vans used solely for the carriage of goods.

(b) Show where each car or van is normally kept overnight. If there are more than two vehicles, give answers for only two of them:—

| | 1st | 2nd | |
|---|---|---|---|
| 1 | | | In a garage or carport within the grounds of your dwelling |
| 2 | | | In a garage or carport elsewhere |
| 3 | | | Within the grounds of your dwelling but not in a garage or carport |
| 4 | | | On the road, street or verge |
| 5 | | | Elsewhere—please give details |

The term car means a car or van taxed wholly or in part as a private vehicle and owned and/or used exclusively by a resident member(s) of the household.

As will be seen from (b) above, information on garaging was collected for up to two cars per household. In the tables dealing with garaging arrangements, the third and subsequent cars were regarded as 'Not stated'. If there was more than one answer given in respect of a car, the lowest numbered answer was selected.

**Non-private Establishments**

Non-private establishments comprise hotels, boarding houses, hospitals and nursing homes, residential schools and colleges, old people's homes, defence establishments, ships and other establishments providing some form of communal catering. Households orginally enumerated as private were re-classified as boarding houses where the number of boarders or paying guests was five or more. Establishments described as hotels but having no sleeping accommodation are excluded. Households occupying private residences in the grounds or private accommodation within the main building of the establishment were counted as private households, as were households living in married residences within the perimeter of a defence establishment.

**Composition of Private Households**

Question B3 on the household form read as follows:—

B.3 Write 'Head' for the head of the household and relationship to the head for each of the other persons: for example, 'Wife', 'Son', Daughter-in-law', 'Visitor', 'Paying Guest'.

The answers to this question were used to identify families and non-family persons comprising the household.

**Family**

A family is a married couple with or without never-married child(ren), a lone parent with his or her never-married child(ren), or grandparent(s) and never-married grandchild(ren) where there are no parents.

Persons not in a family were those persons in the household who could not be allocated to a family on the above definitions.

**Households with no family**

These were households in which no group of persons was identified as constituting a family.

**Households with more than one family**

These were households in which more than one group of persons was identified as constituting a family but who were not domestic servants or visitors.

**Head of household**

The head of the household was the person so described on the census form by the householder making the return, provided that that person was not under 16 years of age, a visitor or a resident domestic servant.

If more than one person, or if no person, was described as head, the first stated resident person on the form who was aged over 16 and not a domestic servant was selected as head.

**Dependent Children**

Dependent children are defined as children under the age of 15, and never-married persons 15 to 24 years of age classified as students in full-time attendance at an educational establishment.

**Economically Active**

(a) In employment means having a job or being self-employed during the week preceding Census day. Temporary, part-time or casual employment is included. Persons absent from their employment due to holidays, strikes, lock-outs, short-time working or temporary stoppages are regarded as in employment. Persons off work sick are regarded as in employment if their jobs are waiting for them on return.

(b) Out of employment means seeking work or prevented from seeking work by temporary sickness or having obtained an appointment with a starting date after census day.

**Economically Inactive**

Persons who did not work for pay or profit, such as dependent children, students in educational establishments, retired persons, persons with private means, housewives and others not seeking work.

**Earners**

The number of earners in a household is a count of the persons in the household who were classed as economically active (see above).

**Chief Economic Supporter**

In a number of tables households are classified by the characteristics of the chief economic supporter and not by those of the head of the household, although in the majority of cases the stated head of the household was also the chief economic supporter.

The chief economic supporter of a household was selected from the members of the household by application of the following rules:—

Rule (1) Employment position is considered first. Those in full-time employment, or out of work were selected before those in part-time employment, who were selected before those retired, who were selected before any others.

Rule (2) Among those selected by Rule (1) above, position in household is considered next, household heads being selected before other members of the household.

Rule (3) Among those selected by Rules (1) and (2), sex was considered next, males being selected before females.

Rule (4) Among those selected by Rules (1), (2) and (3), age is considered next, older persons being selected before younger.

If these rules finally select a group consisting of two or more persons, that person whose name appears first on the census form is selected as chief economic supporter.

By the terms of this classification the head of the household, in the majority of cases, is classed as the chief economic supporter. In cases where the head of the household is a retired male or an economically inactive female, a working child or other economically active person would be selected as the chief economic supporter.

**Socio-Economic Group**

In several tables, heads of households, chief economic supporters and husbands are classified by socio-economic group.

A person's socio-economic group was determined by occupation and employment status in the week before Census for employed persons, and by occupation and employment status in the last full-time employment for those out-of-work or retired. Persons classified as economically inactive, except for retired persons, cannot be classified to socio-economic groups.

The occupation of a person is the kind of work which he or she performs, due regard being paid to the conditions under which it is performed and this alone determines the particular group in an occupation classification to which the person is assigned. The nature of the factory, business or service in which the person is employed has no bearing upon the classfication of his occupation, except to the extent that it enables the nature of his duties to be more clearly defined. This will perhaps be made clearer by an example. A crane driver may be employed in a shipyard, an engineering works or in building and construction, but this has no bearing upon his occupation and all crane drivers should be classified to the same occupational group.

A full description of the occupation classification used in the Census is given in the Classification of Occupations 1970 (H.M.S.O. 1970.)

The Classification of employment status divides the "employee" from the "self-employed" and further subdivides these groups as follows:—

1. **Self-employed**
   - (1) Without employees
   - (2) With employees
     - (a) large establishments, i.e. with 25 or more employees
     - (b) small establishments
2. **Employees**
   - (1) Managers
     - (a) large establishments
     - (b) small establishments
   - (2) Foremen and Supervisors
     - (a) manual
     - (b) non-manual
   - (3) Apprentices, articled pupils, formal trainees
   - (4) Family workers
   - (5) Others

The 17 socio-economic groups are determined by a cross-classification of occupation and employment status.

The socio-economic groups, with brief definitions, are as follows:

**(1) Employers and managers in central and local government, industry, commerce, etc.—large establishments**

Persons who employ others or generally plan and supervise in non-agricultural enterprises employing 25 or more persons.

**(2) Employers and managers in industry, commerce, etc.—small establishments**

As in group (1) but in establishments employing fewer than 25 persons.

**(3) Professional Workers—self-employed**

Self-employed persons engaged in work normally requiring qualifications of university degree standard.

**(4) Professional Workers—Employees**

Employees engaged in work normally requiring qualifications of university degree standard.

**(5) Intermediate non-manual workers**

Employees engaged in non-manual occupations ancillary to the professions, not normally requiring qualifications of university degree standard: persons engaged in artistic work and not employing others thereat; self employed nurses, medical auxiliaries, teachers and work study engineers and technicians are included; and employees (other than managers) engaged in occupations included in group (6), who formally and immediately supervise others engaged in such occupations.

**(6) Junior non-manual workers**

Employees, not exercising general planning or supervisory powers, engaged in clerical, sales and non-manual communications and security occupations, excluding those who have additional and formal supervisory functions (these are included in group 5).

**(7) Personal service workers**

Employees engaged in service occupations caring for food, drink, clothing and other personal needs.

**(8) Foreman and Supervisors—manual**

Employees (other than managers) who formally and immediately supervise others engaged in manual occupations, whether or not themselves engaged in such occupations.

**(9) Skilled manual workers**

Employees engaged in manual occupations which require considerable and specific skills.

**(10) Semi-skilled manual workers**

Employees engaged in manual occupations which require slight but specific skills.

**(11) Unskilled manual workers**

Other employees engaged in manual occupations.

**(12) Own account workers (other than professional)**

Self-employed persons engaged in any trade, personal service or manual occupation not normally requiring training of university degree standard and having no employees other than family workers.

**(13) Farmers—employers and managers**

Persons who own, rent or manage farms, market gardens or forests, employing people other than family workers in the work of the enterprise.

**(14) Farmers—own account**

Persons who own or rent farms, market gardens or forests and having no employees other than family workers.

**(15) Agricultural workers**

Employees engaged in tending crops, animals, game or forests, or operating agricultural or forestry machinery.

**(16) Members of armed forces**

**(17) Occupation inadequately described**

It is intended that each socio-economic group should contain people whose social, cultural and recreational standards and behaviour are similar. As it is not practicable to ask direct questions about these subjects in a population census, the allocation of occupied persons to socio-economic groups is determined by considering their employment status and occupation

This classification is normally applied only to economically active persons and retired persons. When extended to cover the remainder of the population, 'students' and 'others economically inactive' are shown separately.

**Part-time workers**

Table 33 classifies economically active wives by full-time and part-time employment. Part-time workers were those persons whose employment during the week preceding Census day was for less than the full working week in the occupation for reasons other than strikes, lock-outs, short-time working, sickness or holidays.

**Presentation Conventions**

A dash (—) indicates that the entry is zero.
A blank indicates that a particular combination of line and column is impossible. In the presentation of rates, a rate shown as 0 indicates that the actual rate is less than one half of a unit but is not zero.

**Areas for which statistics are presented**

**Local authority areas**

The local authority areas adopted for the purposes of this report are the new District Council Areas which were established following the passing of the Local Government (Boundaries) Act (Northern Ireland) 1971 and the Local Government Act (Northern Ireland) 1972, and which became functional on 1 October 1973. The District Council Areas are divided into Wards, the number of Wards per Area varying from 15 to 30, with the exception of the Belfast District Council Area which is divided into 51 Wards. The Wards form the territorial units for the purpose of election to the local councils.
Information for the local authority areas which existed at the time of the Census has been published in the various County Reports.

**Regions**

Conventionally, the regional divisions adopted for the purposes of the 1971 Census are the Health and Personal Services Board Areas which are defined on the basis of District Council Areas as follows:—

| EASTERN | NORTHERN |
|---|---|
| Ards | Antrim |
| Belfast | Ballymena |
| Castlereagh | Ballymoney |
| Down | Carrickfergus |
| Lisburn | Coleraine |
| North Down | Cookstown |
| | Larne |
| | Magherafelt |
| | Moyle |
| | Newtownabbey |

| SOUTHERN | WESTERN |
|---|---|
| Armagh | Fermanagh |
| Banbridge | Limavady |
| Craigavon | Londonderry |
| Dungannon | Omagh |
| Newry and Mourne | Strabane |

**Education and Library Board Areas** also consist of an aggregation of District Council Areas and differ only slightly from the regional divisions adopted for the 1971 Census. Statistics for these Areas are not published, but such data may be compiled from tables presented at local authority area level.
The constitution of Education and Library Board Areas is as follows:—

| BELFAST | NORTH EASTERN |
|---|---|
| Belfast District Council Area | As Northern Region but excluding Cookstown District Council Area |

| SOUTH EASTERN | SOUTHERN |
|---|---|

## H Form For Private Households

**To the Head (or Acting Head) of the Household.**

Please complete this form and have it ready for collection on Monday, 26th April. If you need help do not hesitate to ask the enumerator.

The enumerator may ask you any questions necessary to help him to complete or correct the form.

If a house, flat, apartment, etc., is occupied by two or more households, then each occupier must make a separate Return applicable to his accommodation. Boarders are not to be considered as separate occupiers but as part of the household with which they board.

The information you give on the form will be treated as **CONFIDENTIAL** and used only for compiling statistics. No information about named individuals will be passed by the Census Office to any other Government Department or any other Authority or person. If anyone in the census organisation improperly discloses information you provide, he will be liable to prosecution. Similarly you must not disclose information which anyone (for example, a visitor or boarder) gives you to enable you to complete the form.

The legal obligation to fill in the whole form rests on **YOU,** but each person who has to be included is required to give you the information you need. However, anyone who wishes can ask the enumerator or the local Census Officer for an individual form which can be returned direct to the enumerator or local Census Officer and then you need answer only questions B1 and B3 for that person. There is no penalty for refusing to state religious profession.

**PLEASE TAKE NOTE**

There are penalties of up to £10 for failing to comply with the requirements described above, or for giving false information.

When you have completed the form, please sign the declaration at the foot of page 5.

General Register Office,
Ormeau Avenue,

*PLEASE TURN OVER TO NEXT PAGE* ——>

1971 CENSUS FORM
NOTES

*(To be detached before completing questionnaire)*

These notes will help you to answer the questions. Please read them and study the examples on page 6 before you fill in the answers.

**B12 Job last week**

A job means any work for payment or profit. In particular it includes:

a. work on a person's own account

b. part-time work if only for a few hours, such as jobbing gardening or paid domestic work

c. casual, temporary or part-time work of any kind

d. unpaid work in a family business including a shop or farm.

Unpaid work, other than in a family business does not count as a job. Paid work performed by full-time students in their spare time or during holidays does not count as a job.

**B13 Employer's name and business**

Describe the business fully and try to avoid abbreviations or initials.

General terms such as 'Manufacturer', 'Merchant', 'Agent', 'Broker', 'Dealer', 'Engineering', 'Shopkeeper', are not enough by themselves and further details should be given about the articles manufactured or dealt in.

For civil servants, local government officials and other public officials give the name of the Government department, local authority or public body and the branch in which they are employed.

For people employed solely in private domestic service, write 'Private' in answer to this question.

For members of Armed Forces see special note overleaf.

**B14 Occupation**

Full and precise details of occupation are required.

If a person's job is known in the trade or industry by a special name use that name.

Terms such as 'Scientist', 'Technician', 'Engineer', 'Machinist', 'Fitter', 'Foreman', 'Checker', should not be used by themselves; greater detail is required, for example:

Woodwork machinist, Civil engineer, Toolroom foreman, etc.

For civil servants, local government officials and other public officials give their rank or grade.

**B15 Self-employed**

'Self-employed, employing others', means having one or more employees other than 'Family workers'. A 'Family worker' is one who lives in the same household as the employer and is related to him.

**B16 Apprentices, etc.**

Answer this question only for a person who is undergoing training for a period fixed in advance and leading to recognition as a skilled worker or technician or to a recognised technical, commercial or professional qualification or managerial post.

Do not answer this question for a young person **undergoing training** who has not yet entered into formal apprenticeship.

**B18 Place of Work**

For people who do not work regularly at one place or who travel during the course of their work (for example, sales representatives, seamen and certain building and transport workers):

a. if they report daily to a fixed address or depot give that address.

b. if they do not report daily to a fixed address or depot write 'No fixed place'.

For people such as building workers employed on a site for a long period give the address of the site.

**B19 Means of transport**

If the person uses different means of transport on different days give the means used most often.

Do not use terms such as 'Public transport' or 'Private transport' but give the actual means used, for example, 'Train', 'Public service bus', 'Employer's lorry', 'Car', 'Bicycle'.

If the person walks all or most of the way to work, write 'On foot'.

**Special Note for Members of Armed Forces**

At B13 give arm and branch of service.
At B14 give rank or rating only.
Questions B15, B16, B17 and B20 need not be answered.

**(Answers should be written on the line on which the person's name appears in column B1)**

**Answer questions B13-B15 in respect of the main employment last week, or of the most recent job if retired or out of work.**

For persons who have never had a job and for a housewife who did not have a job last week, write 'None' at B13

| | **Did the person have a job last week (the week ended 24th April 1971)?** (see note B12)<br>Tick box 1 if the person had a job even if it was only part-time or if the person was **temporarily away** from work, on holiday, sick, on strike, or laid off.<br>If the person did not have a job, tick whichever of boxes 2, 3, 4 or 5 is appropriate, state the reason if box 5 is ticked (for example, Housewife, Student, Permanently sick).<br>B12 | What was the **name and business** of the person's employer (if self-employed, the name and nature of the person's business)?<br>*Give the trading name if one was used.*<br>(see note B13)<br>B13 | What was the person's **occupation?**<br>Give full details, stating where appropriate, the material worked or dealt in.<br>(see note B14)<br>B14 | Was the person an employee, or self-employed employing others (see note B15), or self-employed without employees?<br>B15 |
|---|---|---|---|---|
| *1st Person* | 1 ☐ YES – in a job at some time during the week<br>2 ☐ NO – seeking work or waiting to take up job<br>3 ☐ NO – intending to seek work but sick<br>4 ☐ NO – wholly retired<br>5 ☐ NO – not seeking work for some other reason, namely<br>..... | a.
