PREFACE.

This volume has been prepared in accordance with the provisions of Section 6 (I) of the Census Act (Northern Ireland), 1925. The 1926 Census statistics which it contains were compiled from the returns made as at midnight of the 18-19th April, 1926: they supersede those in the Preliminary Report published in August, 1926, and may be regarded as final.

The Census publications will consist of:—

1. SEVEN COUNTY VOLUMES, each similar in design and scope to the present publication.
2. A GENERAL REPORT relating to Northern Ireland as a whole, covering in more detail the statistics shown in the County Volumes, and containing in addition tables showing
 - (i.) the occupational distribution of persons engaged in each of 51 groups of industries;
 - (ii.) the distribution of the foreign born population by nationality, age, marital condition, and occupation;
 - (iii.) the distribution of families of dependent children under 16 years of age, by age, sex, marital condition, and occupation of parent;
 - (iv.) the occupational distribution of persons suffering from infirmities.
3. A TOPOGRAPHICAL INDEX, dealing in separate alphabetical sections with each type of area for which statistics are published in the County series. The particulars given for each territorial unit include references to the 6" Ordnance Survey maps and to Tables 3, 4, or 5 of the relative County Volume.

The net prices for the above publications will be 5s. 0d. for each County Volume and 10s. 0d. each for the General Report and the Topographical Index. A complete set of these volumes may be obtained directly from the Superintendent, H.M. Stationery Office, 15, Donegall Square West, Belfast, at the special inclusive price of £2 2s. 0d. strictly net.

The Registrar-General is empowered by Section 6 (2) of the Census Act (Northern Ireland), 1925, to prepare and supply from the Census returns statistics other than those published in the Census Reports, at the request and cost of any local authority or person. Any special demands for statistics more detailed than those published (either as regards subject matter or area) can thus, as far as office records permit, be satisfied. Requests for special compilation of Census statistics should be addressed to the Registrar-General, who will be pleased to advise and furnish an estimate of cost

PART I.

DEFINITIONS AND EXPLANATIONS OF TERMS USED IN THIS VOLUME.

AREA.

The acreages given are as measured by the Ordnance Survey of 1899-1907. They exclude

In Tables 1, 3-5 (a) foreshore and unnamed islands of less than one rood in extent;

In Tables 3-5 (b) land on the shores of Loughs Erne, Castlehulme, and Macnean;

(c) the larger rivers and lakes.

N.B.—While (b) and (c) above are not enclosed within townland boundaries they form part of administrative areas. The extent of these excluded portions is shown for the county, county districts, and poor law unions in foot-notes to the appropriate tables.

POPULATION.

The population comprises all persons, including Forces of the Crown, enumerated as at midnight of Sunday the 18th-19th April, 1926, together with those who, not having been enumerated elsewhere, arrived in port or were received into any dwelling on the morning of the 19th April before the Census returns were collected.

The population assigned to each area is that actually present (as defined above) within it, whether as permanent residents or temporary visitors, persons in port but on ship board being classified to the adjacent area.

In general these definitions apply to the population as enumerated at previous censuses, and shown in Table 2.

ADMINISTRATIVE DIVISIONS.

The County is divided into four county districts (one urban and three rural) comprising 79 district electoral divisions, three of which are situate in the urban district (see Table 3). The urban district electoral divisions are coterminous with wards bearing the same name.

Three poor law unions are contained within the County—two wholly and one partly; the remaining portion of the divided union being situate in Tyrone County. The medical dispensary districts situate in the County number sixteen (see Table 4). Poor law unions and medical dispensary districts are, respectively, superintendent registrars' and registrars' districts for the registration of marriages, births, and deaths.

The County is also divided into twenty county electoral divisions (see Table 5); and forms a single regional education area (see Table 12).

Apart from the reconstitution of county electoral divisions and district electoral divisions in 1923, the changes which have taken place in the boundaries of administrative divisions since 1911 are as follows:—

(a) Portions of Ely and Florence Court Dispensary Districts transferred to Holywell No. 1 District (1st October, 1912):

(b) Portions of Enniskillen Dispensary District transferred to Florence Court and Lisbellaw Districts (1st October, 1912).

- (c) Lisbellaw Dispensary District abolished and its area partitioned between Enniskillen, Florence Court, and Tempo Districts (1st April, 1921).
- (d) Enniskillen Poor Law Union reduced by the exclusion therefrom of the County Cavan portion (1st April, 1921).
- (e) Irvinestown Poor Law Union enlarged by the inclusion of that portion of the former Poor Law Union of Ballyshannon which is situate in Northern Ireland (1st April, 1921).
- (f) Lisnaskea Poor Law Union enlarged by the inclusion of that portion of the former Poor Law Union of Clones which is situate in Northern Ireland (1st April, 1921).
- (g) Belleek Rural District abolished and its area added to Irvinestown Rural District (1st April, 1921).
- (h) Clones No. 2 Rural District abolished and its area added to Lisnaskea Rural District (1st April, 1921).

PARLIAMENTARY CONSTITUENCY.

The present parliamentary constituency was created by the Government of Ireland Act, 1920, and comprises the administrative Counties of Fermanagh and Tyrone.

HOUSES.

1. The term "House" denotes
 - (a) each structure (except institutions) which stands alone or is separated from another by a vertical party wall ; and which is used or intended partly or wholly for habitation ;
 - (b) each institution (viz., hospital, sanatorium, nursing home, infirmary, workhouse, asylum, religious or charitable community, residential school or college, barracks or other premises under Naval, Military, Air Force, or Police discipline, prison or other place of detention), regardless of the number of buildings within its precincts ;
 - (c) each vessel, caravan, tent, or other movable dwelling.

The 1911 figures for "Houses" do not include vessels, and each separate building within the precincts of an institution was at that Census regarded as a separate "House."

2. The terms "Boarding-House" and "Lodging-House" denote, in addition to habitations so described, any private house containing three or more boarders or lodgers.

3. The term "Private House" denotes all habitations other than
 - (a) dwellings within the precincts of an institution ;
 - (b) hotels, boarding-houses, and other such communal dwellings ;
 - (c) premises in which three or more boarders, lodgers, or trade assistants reside ;
 - (d) residences occupied by virtue of the tenant's employment, (except rectories and manses, and dwellings belonging to but detached from domestic establishments) ;
 - (e) premises occupied by caretakers ;
 - (f) ships, caravans, tents, and other movable dwellings ;
 - (g) barns, stables, and out-houses occupied on Census night.

The term includes dwellings over shops except when these are occupied as described at (c) and (d) above.

4. The term "Inhabited" denotes actual residence of a person or persons, on Census night. "Uninhabited" houses, therefore, include those temporarily vacant through the absence of the usual occupiers as well as those without tenants. Enumerators were instructed to omit from their enumeration empty houses in such an advanced state of decay that there was little likelihood that they would again be made fit for habitation. In this matter they were required to use their own judgment.

ROOMS.

1. The rooms enumerated are the usual living rooms, including bedrooms and kitchens, but excluding sculleries (i.e., rooms used *only* for washing, cleaning, or cooking), pantries, cloakrooms, landings, closets or bathrooms, or any warehouse, office or shop rooms.

2. For the purpose of classifying families by rooms occupied (Table 8), shared-room occupations—i.e., those in which two or more families have rooms in common,—have been rounded up to the next integral number of rooms. Thus, three families occupying $1\frac{1}{3}$, $2\frac{1}{3}$, and $2\frac{1}{3}$ rooms in a 6-roomed house would be shown as occupying 2, 3, and 3 rooms respectively. The extent of the rounding-up process may be ascertained in a general way by reference to Table 7, in which the actual number of rooms is given. Generally, in cases of 1 room occupations, all persons living therein, whether related or not, have been enumerated as one Census family.

FAMILIES.

1. The term "Family" denotes

- (a) The inhabitants of each institution (see 1 (b) of "Houses" definition), hotel, boarding-house, lodging-house, or ship.
- (b) Each person or group of persons occupying separately the whole, or part of, any dwelling other than as described at (a).

In 1911 the inhabitants of premises described at (a) above were in certain cases enumerated as two or more families.

2. "Private Families" mean all families enumerated in "Private Houses" (see 3 of "Houses" definition).

RATEABLE VALUATION.

The figures shown are those for service of the year ended 31st March, 1927, and have been supplied by the Commissioner of Valuation. Rateable hereditaments include lands, buildings, tolls, railways, tram-roads, canals, fisheries, turbaries, mines, quarries, waterworks, telegraphs, and telephones. The figures throughout exclude the valuation of telegraphs, fisheries, and (in certain cases) railways and waterworks, the amounts concerned being aggregated and shown for the county, county districts, and poor law unions in foot-notes to the appropriate tables.

EDUCATION.

The classification under educational establishments (which was assisted by reference to lists supplied for Census purposes by the Ministry of Education) is as follows:—

1. PUBLIC ELEMENTARY SCHOOLS. Day and evening pupils are grouped together in this class, the question on the Census schedule not requiring a separation as between day and evening in respect of pupils attending public elementary schools.
2. SECONDARY SCHOOLS, including preparatory departments and preparatory schools. This heading relates to day pupils only, and the schools are limited to those recognised by the Ministry of Education.

3. **TECHNICAL SCHOOLS.** The day pupils shown in this group comprise those stated to be attending junior technical schools, day commercial classes, and day classes for domestic economy and manual instruction which were being held at certain centres in April, 1926. The evening pupils comprise those stated to be attending technical schools or classes in the evening.
4. **OTHER EDUCATIONAL ESTABLISHMENTS (Day and Evening).** These include secondary schools not recognised by the Ministry of Education, universities, training colleges for teachers, agricultural schools, commercial schools, home or private tuition, etc.

OCCUPATIONS.

The occupational classification is based on that used in the Reports on the Census of England and Wales, 1921.*

It will be seen that there are thirty-two orders. Each of these covers the same occupational ground as the England and Wales orders. Eleven of the orders are divided into thirty-two sub-orders, each of which is comparable with the corresponding England and Wales sub-order, with the following exceptions:—

	Northern Ireland Sub-orders.		Corresponding England and Wales Sub-orders.
III.	2.	III.	2-4.
IV.	1.	IV.	1 and 2.
VII.	2.	VII.	2 and 3.
VII.	3-7.	VII.	4-8 respectively.
XIX.	1.	XIX.	1-3.
XX.	1 and 2.	XX.	2 and 3 respectively.
XX.	3.	XX.	1 and 4
XXIII.	1.	XXIII.	1 and 2.

Within the sub-orders are 341 occupational headings, evolved by processes both of grouping and expansion from the England and Wales headings, which number 611.

INDUSTRIES.

The industrial classification is based on that used in the Reports on the Census of England and Wales, 1921.*

It will be seen that there are twenty-two orders. Each of these cover the same industrial ground as the England and Wales orders. Nine of the orders are divided into thirty-eight sub-orders, each of which is comparable with the corresponding England and Wales sub-order, with the following exceptions:—

	Northern Ireland Sub-orders.		Corresponding England and Wales Sub-orders.
XVI.	5.	XVI.	5-7.
XVIII.	1.	XVIII.	1 and 2.
XVIII.	2.	XVIII.	3.

Within the sub-orders are 226 industrial headings, evolved by processes both of grouping and expansion from the England and Wales headings, which number 477. The industry table contained in this volume shows figures for orders and sub-orders only.

* Full details of the English system of classification are published in the "Classification of Occupations, Census, 1921," and the "Classification of Industries, Census, 1921," to be purchased directly from H.M.S.O., or through any Bookseller.

BIRTHPLACES.

Persons stated to have been born in Ireland—the County name or “Irish Free State” not being inserted—are assumed to have been born in the Irish Free State. Where nationality is given but birthplace is not, it has been assumed that the person was born in the country of which he or she is a national. All persons of British nationality and unstated birthplace have been regarded as born in the County of enumeration.

RELIGIOUS PROFESSIONS.

The religious professions, other than Roman Catholic, Presbyterian, Church of Ireland, and Methodist, have been classified under the headings set out at foot of Table 18, separate mention being made of all professions containing 10 or more adherents. The heading “Presbyterian” includes those who call themselves by this name without qualification, together with those returned as members of the Established Church of Scotland. Members of the Church of England and the Episcopal Church of Scotland have not been included under Church of Ireland except where stated. The latter group includes all persons returned as “Church” or “Episcopalian.”

ORPHANHOOD.

In compiling statistics under this head, step-parents, foster-parents, and adoptive parents, so stated, have been treated in the same manner as natural parents. Where the information as to one parent is stated as “not known,” that parent has been assumed to be dead and the case dealt with accordingly. Where information as to neither parent is given, the case has been placed in the “No Statement” group.

INFIRMITIES.

1. DEAF AND DUMB, DUMB, BLIND. The figures given are in respect of persons so returned, except where the answers indicate only partial infirmity, as “nearly blind.”

2. CRIPPLED. In addition to those persons specifically described as “Crippled,” the figures given include all cases in which it is clearly indicated that the person

- (a) has suffered a total permanent loss of the use of arm, hand, leg, or foot ;
- (b) is permanently crippled in such a degree as to prevent the free pursuit of most ordinary occupations.

The following cases, treated as “Crippled,” indicate the variety of the terms used in answering the question on the Census schedule :—

Arm—deformed, disabled ; hand—deformed ; hip joint disease ; knee—decayed, tubercular arthritis in ; leg—disabled, diseased bone in, infirm, short ; on crutch ; paralysis—infantile, nervous, of arms and side, of legs and back, of spine ; rheumatoid arthritis ; spinal caries ; unable to walk.

3. MENTALLY AFFLICTED. All cases returned, whatever the degree of affliction, are included in the tables. The following terms were used in the returns :—

Afflicted ; feeble minded ; imbecile ; melancholia ; mental debility ; simple ; weak intellect.

4. Persons suffering from more than one infirmity have been classified to that which appears most likely to constitute the greater, or greatest, disability, infirmities being graded for this purpose from greatest to least, thus :—

Mentally afflicted ; blind ; crippled ; deaf and dumb ; dumb.

SPELLING OF PLACE NAMES.

The spelling of place names follows that in the 1911 Census volumes, except that corrections have been made to secure agreement with the spelling on the Ordnance Survey maps where differences were revealed in the course of the work. The spelling now may be regarded as generally following that adopted by the Ordnance Survey Department.

CONVENTION AS TO DOTS (.) AND DASHES.—

Throughout this volume dots (.) are used in tabular matter to indicate nil (0), and dashes (—) are used to indicate that information cannot or is not intended to be given.

CORRECTION OF CENSUS DATA.

Every effort has been made to eliminate, as far as practicable, errors and inaccuracies from the Census data. The process of correction began with the Enumerators, who received full instructions as to the action to be taken in cases of error or omission; it was continued by a system of check applied at each stage of the office work; and was completed by an intensive scrutiny and inter-comparison of the tabulation sheets. This scrutiny and comparison revealed a certain number of incongruities, which, when material, were investigated and corrected in the light of the facts disclosed. Errors of a minor nature (i.e., such as could not affect the statistical value of the Census Tables) were adjusted more or less arbitrarily.

PART II.

STATISTICAL NOTES.

The definitions, etc. contained in Part I of this volume apply with equal force to the contents of these notes and to the tables contained in Part III. Roman numerals are used in this volume for the Tables in Part II, and Arabic numerals for the tables in Part III.

AREA.

The area of Fermanagh County, exclusive of the larger rivers and lakes, and of land on the shores of Loughs Erne, Castlehulme, and Macnean, is 653 square miles or 12.5 per cent. of the area of Northern Ireland.

POPULATION.

The population numbers 57,984 persons, the smallest recorded. The decrease over the past 15 years amounts to 3,852 persons, or 6.2 per cent., a continuation of the downward movement recorded at each Census enumeration from 1851 onwards. The average annual rate of decrease has, however, been lessening since 1891, and that for the period 1911–1926 (0.4 per cent.) is the smallest since the beginning of the downward trend. (Figures for the earlier periods are shown in Table 2).

TABLE I.

Intercensal Period	Population at beginning of Period.	Births Registered.	Deaths Registered.	Excess of Births over Deaths.	Intercensal decrease in Population.	Net movement outwards from the County. Col. (5) plus Col. (6).
(1)	(2)	(3)	(4)	(5)	(6)	(7)
1871—1881	92,794	20,010	13,528	6,482	7,915	14,397
1881—1891	84,879	15,681	12,258	3,423	10,709	14,132

1911—1926	61,836	18,029	14,343	3,686	3,852	(a) 7,538

(a) Including the deaths of non-civilians of the County of Fermanagh which occurred outside Northern Ireland. It has not been found possible to estimate the number of these deaths at all closely, but from the War mortality lists of soldiers from Ireland, which were compiled by the War Office from regimental records, it appears that for the whole of Northern Ireland the non-civilian deaths which occurred outside the country numbered about 10,000 during the last intercensal period, exclusive of the deaths of regular soldiers stationed outside the country at the date of the 1911 Census.

While comparable figures of excess of births over deaths are not available for periods prior to 1871, it is evident that the actual net outward movement during the past 85 years has considerably exceeded the recorded decrease in population. Complete information as to the size and direction of the emigration stream is lacking, but for the period 1871–1911 it can be stated that about two-thirds of the net outward movement is accounted for by emigration to places abroad, and that about 54 per cent. of the natives of County Fermanagh living elsewhere in Ireland were domiciled in what is now the Irish Free State.

From Table II it will be seen that the one urban district in the County has increased very slightly in population during the past 15 years, while rural districts have decreased—the trend in the latter type of area following that exhibited in the preceding intercensal period. The 1926 urban population constitutes 8.4 per cent. of the whole, as against 7.8 per cent. in 1911, and 8.3 per cent. in 1901.

(a) The figures given relate to each county district as constituted at the date of the 1926 Census.

* Exclusive of 37,165 acres under the larger rivers and lakes; and of 2,299 acres, land on shores of Loughs Erne, Castlehulme, and Macnean.

Tables 3, 4, and 5 provide more detailed information regarding the population in the various sub-divisions of the County and incorporate figures of rateable valuation. The rateable valuation has increased from £242,801 to £243,898 over the past fifteen years, an increase of 0.5 per cent. as compared with a decrease of 6.2 per cent. in population.

TABLE III.

Parliamentary Constituency (1)	Population.		Parliamentary Electors (Decr., 1925 Register).		Electors as a percentage of Population shown in Cols. (2) & (3).		Number of Members of Parliament of	
	Males aged 21 & over (2)	Females aged 30 & over (3)	Males. (4)	Females. (5)	Males. (6)	Females. (7)	Northern Ireland. (8)	United Kingdom. (9)
FERMANAGH & TYRONE Cos. (Fermanagh portion)	18,240	13,314	18,610	9,593	102.0	72.1	*	*

* For the entire constituency of Fermanagh and Tyrone there are 8 members of the Parliament of Northern Ireland and 2 members of the Parliament of the United Kingdom.

Parliamentary Constituency.—In considering the percentages shown in Table III, regard should be given to the qualifications entitling a person to be registered as an elector. In general, a man is qualified if 21 years of age or upwards, with the requisite residence or business premises qualification: a woman, if 30 years of age or upwards, and if (1) entitled to be registered as a local government elector in respect of the occupation of land or premises (not being a dwelling-house) of a yearly value of not less than £5, or of a dwelling-house; or (2) the wife of a husband entitled to be so registered.

It may be noted that a person may be registered as a parliamentary elector in a constituency although not resident therein.

The question of the comparison of the number of parliamentary electors with population will be dealt with more fully in the General Report.

BUILDINGS, ROOMS, AND FAMILIES.

Houses.—While there are differences in the definitions of the term "House" as used in 1911 and 1926, they do not affect to any appreciable extent the comparisons shown in the following table. The houses dealt with in this table embrace all types of buildings, etc. Tables 6 and 9 deal respectively with private houses and each of the other types of inhabited buildings, etc.

TABLE IV.

Year of Enumeration.	Total Population less Inmates of Institutions.	Houses.				Average Number of Persons per Inhabited House.	Number of Families in occupation of all Inhabited Houses.	Average Number of Persons per Family.
		Total.	Inhabited.	Uninhabited.	Building.			
1851	114,139	21,339	20,221	1,072	46	5.64	22,121	5.16
1861	105,173	20,061	19,276	745	40	5.46	20,821	5.05
1871	92,145	18,321	17,710	577	34	5.20	18,957	4.86
1881	83,994	17,134	16,289	838	7	5.16	17,111	4.91
1891	73,330	16,077	15,091	974	12	4.86	15,686	4.67
1901	64,552	15,407	14,122	1,270	15	4.57	14,496	4.45
1911	61,412	14,968	13,674	1,265	29	4.49	13,973	4.39
1926	57,738	14,000	12,924	1,039	37	4.46	13,192	4.38

While the total number of houses in the County decreased by 6.5 per cent., the number of inhabited houses decreased by 5.5 per cent. only—this being due to a considerable reduction in the number of uninhabited houses, the 1926 figure for which is the smallest recorded since 1891. The fact that the rate of decrease in inhabited houses is less than that in population evidences a change in housing conditions to which further reference is made in the comment on Table V below.

The number of houses under construction is the highest recorded since 1861.

Persons per Inhabited House and Persons per Family. The average number of persons per inhabited house, which showed a steady decrease from 1851 to 1911, has again shown a decrease from 1911 to 1926. The average number of persons per family has also shown a further decline. In this connection it should be noted that by "family" is meant Census family, which it will be seen from the definition on page viii differs from the natural family of parents and children.

With regard to the habitation of houses by more than one family, there has been little change during the past half century, the number of families per 100 inhabited houses at each Census enumeration from 1871 to 1926 being as follows: 107, 105, 104, 103, 102, 102.

(a) The figures given relate to each county district as constituted at the date of the 1926 Census.

Housing in County Districts.—Table V shows that there has been a decrease in the total number of houses in all county districts but Enniskillen Urban, where a slight increase is shown. Comparison of this Table with Table II also shows that since 1911 the proportion of inhabited houses to population has increased in all county districts but Enniskillen Rural, where the process has been reversed.

The extent of sub-letting in the county districts is best indicated by the factor “number of private families per inhabited private house,” which is readily obtainable from the figures of house accommodation contained in Table 7. It will be seen that the number of families per 100 private houses is 102 for the County, and that there is little variation from this average except in Enniskillen Urban District, where the figure is 123. 96 per cent. of the families in the County occupy a whole house each.

Of all the inhabited private houses in the County 99 per cent. are occupied by single families and 44 per cent. contain 1 to 3 rooms.

Accommodation of Families and Persons.—The occupied room accommodation in the County averages one room per person, the variation from this average ranging between 1.11 in Enniskillen Urban District and 0.91 in Irvinestown Rural District. A detailed analysis of the room accommodation, coupled with the size of family, etc., appears in Table 8. Over 29 per cent. of the families in the County are seen to occupy 3 rooms each, the family of 3 occurs most frequently, and the most common combination consists of families of 3, each family occupying 3 rooms.

TABLE VII.*

Irvinestown	76.9	16.5	4.6	2.0	23.1
Lisnaskea	81.7	13.8	3.2	1.3	18.3

Table VII, in conjunction with Table 8, will enable comparisons to be made between the density of occupation in each county district. In these tables the density of 2 persons and less per room has not been sub-divided, but this is not intended to imply any judgment as to what in fact constitutes adequate accommodation, since this matter obviously could not be determined without a knowledge of other factors, such as size of rooms, sanitary and water provision, etc. Sub-divisions other than those set out in summary form can readily be calculated from the details given in the first nine columns of Table 8.

The average density of occupation in Enniskillen Urban District is less than that in rural districts as a whole; but the distribution of urban and rural population over the various densities differs considerably, the proportion of the private family population occupying premises at a density of more than 2 persons per room being 13.8 per cent. in Enniskillen Urban District as against 19.2 per cent. in the rural districts. The greatest density of occupation is found in Irvinestown Rural District, where 23.1 per cent. of the private family population are housed at a density of more than 2 persons per room.

* Table VI. is given for Belfast and Londonderry County Boroughs only.

INSTITUTIONS, ETC.

The population in each of the types of inhabited buildings, etc., other than private houses, is shown in Tables 9 and 10, together with the number of inmates in respect of institutions. The institutions are not individually identified as in 1911, but the number of institutions in each category is given. The inmates of the Poor Law Institutions number 216 as against 272, at the date of the 1911 Census. Persons on shipboard number 4, as against none in 1911. "Other premises" include police and military barracks, residential schools, premises occupied by caretakers, etc.

SEXES, AGES, AND MARITAL CONDITIONS.

Table 11 shows the distribution of the population of the County by sex, age, and marital condition. The following tables summarise the position in 1926 and the changes in the last intercensal period.

Excess of Males over Females.—Table 2 shows that the number of females per 1,000 males has fallen from 1,059 in 1821 to 926 in 1926. The preponderance of males first recorded in 1891 has been growing steadily since. It will be seen from Table II that the females now outnumber the males only between ages 70—94.

* Table VIII. is given for Belfast and Londonderry County Boroughs only, and Table IX. for Belfast County Borough only.

Distribution according to Age.—The decrease of 6.2 per cent. in the total population is the net result of decreases in age groups 0—9, 20—44, and 60 and over; and increases in age groups 10—19, and 45—59. Materials for an analysis of the manner in which variations in the number of births and deaths from year to year, the number of war deaths, and the movement of population have combined to produce these changes in age distribution are not available: the effect has been to reduce the average age of the population from approximately 32.5 years in 1911 to 32 years at the present time.

Distribution by Marital Condition.—Table XII shows the percentage decrease in the male and female populations of each marital condition since 1911. It will be seen that the widowed persons and single females have decreased at a greater rate, and the married persons and single males at a lesser rate, than is shown for the population as a whole (6.2 per cent.)

	Males.	Females.
Single	5.5	9.3
Married	2.6	2.5

EDUCATION.

From Table 12 it will be seen that of the total population in the County 18.1 per cent. of the males and 19.0 per cent. of the females are attending educational establishments.

Of the children aged 6 to 13 inclusive, 5.3 per cent. of boys and 6.0 per cent. of girls are not stated to be attending school.

At ages 15 to 19 inclusive, the persons still attending various kinds of educational establishments represent 10.6 per cent. of the males and 16.2 per cent. of the females.

In endeavouring to draw conclusions from this table it will be necessary to treat the Census figures relating to persons attending technical schools with considerable reserve, pending further investigation, since a marked difference has been found to exist between them and figures of pupils enrolled in technical schools as published by the Ministry of Education. Further reference to this matter will be made in the General Report on the Census relating to Northern Ireland as a whole.

OCCUPATIONS.

Proportion Occupied.—From Table XIII it will be seen that both for males and females the percentage of the total population occupied is slightly higher than in 1911. In 1926, 42.9 per cent. of the population of both sexes and all ages

were occupied, and thus normally were wage-earners. It should be noted that both employed and out-of-work persons are included in the term "occupied." Of the males aged 12 years and over, the proportion occupied has remained virtually unchanged since 1911; of the females, the proportion occupied has increased.

Numerically important Occupations.—When considering the grouping of occupations into orders and sub-orders it should be remembered that this grouping disregards the industries in which the persons may be engaged. For example, the occupational order XXII (Transport Workers) includes porters, messengers, carmen, etc., irrespective of industry, but excludes clerks, carpenters, navvies, etc., employed in the transport service. The latter occupations are included under occupational orders XXVIII, XV, XVII, etc., respectively.

* Only orders or sub-orders showing proportions of 5 or more per 1,000 occupied males or females are included, and the Single or Grouped Occupations have been limited to those showing proportions of 10 or more per 1,000.

From Table XV it will be seen that nearly 76 per cent. of the occupied males appear under the main group or order II, Agricultural Occupations. The occupations of most numerical importance among the males are: Farmers; Farmers' Relatives assisting in the work of the farm; and Agricultural Labourers.

Of the occupied females nearly 74 per cent. are included under the orders XXVII, Personal Service; and II, Agricultural Occupations, the most important occupations numerically being Domestic Servants; Farmers; and Farmers' Relatives assisting in the work of the farm.

Table 13 shows by sex the number of persons included under each heading of the full occupational classification.

Occupational Status and National Health Insurance.—A consideration of the percentages in the following table, which has been compiled from Table 14, shows that between a third and a half of the occupied males are either employers or workers on own account, the proportion for occupied females being 1 in 3. Of the employees, apprentices, and out of work taken together, those who were returned as out of work at the date of the Census represent 5 per cent. in the case of males and 6 per cent. in the case of females.

Of all the occupied population 18.1 per cent. of the males and 27.1 per cent. of the females are returned as being entitled to benefits under the National Health Insurance Acts. For employers and workers on own account of all ages, taken together, the percentages are 1.0 per cent. of the males and 0.6 per cent. of the females, and for employees, apprentices, and out of work, taken together, they are 30.0 per cent. of the males and 40.0 per cent. of the females.

Of the unoccupied, including retired, 2.1 per cent. of the males and 0.4 per cent. of the females are returned as entitled to benefits.

INDUSTRIES.

Agriculture directly provides a livelihood for 68 per cent. of the occupied population. This industry employs nearly eight times the number of persons engaged in Personal Service, the industry next in numerical importance.

The males outnumber the females in all the groups, except the Professions, where the females are slightly in excess, and Personal Service, where the females are more than three times as numerous as the males.

Table 16 shows the industrial distribution of the occupied population in greater detail, figures being given for each industrial order and sub-order.

BIRTHPLACES.

Table 17 shows, by sex, the numbers of persons born in each of the counties of Northern Ireland, other countries in the British Isles, overseas Dominions, foreign countries, and at sea. Of the total population of County Fermanagh 82 per cent. were born in the County, 3 per cent. in the adjacent County of Tyrone, and 2 per cent. in the remaining parts of Northern Ireland. Only 0.43 per cent. were born outside the British Isles, and over one third of these were born in the British Dominions and Colonies. Persons born in foreign countries numbered only 162.

(a) Including Birthplace not stated. In 1926 these numbered 18.

(b) Persons born in the Isle of Man and the Channel Islands have been included under this heading. In 1926 they numbered 5 persons born in the Isle of Man and 1 in the Channel Islands.

From Table XVIII it will be seen that the proportion of the population born in Northern Ireland has gradually decreased since 1861, while the proportion born in the Irish Free State has steadily increased and now forms over 10 per cent. of the whole. The proportions for other parts of the British Isles have also increased. The proportion born abroad is a little less than in 1911.

RELIGIOUS PROFESSIONS.

It will be seen from Table XIX that Presbyterians and Other and Not Stated Denominations have increased in numbers, and now form greater proportions of the population than in 1911; while Roman Catholics, Protestant Episcopalians, and Methodists are both absolutely and relatively less numerous. The greatest absolute decrease occurred among Roman Catholics, and the greatest relative decrease among Methodists.

* This figure comprises 18,964 Church of Ireland, and 532 Church of England.

ORPHANHOOD.

Table 19 shows that of the 17,724 children enumerated in the County at ages under 16, 1,940 have lost one or both parents. This figure excludes cases of orphaned children whose loss has been supplied by step-parents or adoptive parents, and 43 cases in which no statement as to parents was secured. Of the 1,940 orphans, 56 per cent. are fatherless and 37 per cent. are motherless, the remaining 7 per cent. being orphaned by the death of both parents. The high proportion of fatherless to motherless orphans is in part a corollary of the high proportion of widows to widowers, though to some extent it may be due to a possible tendency to regard the fathers of illegitimate children as dead if their whereabouts are unknown.

INFIRMITIES.

The number of persons returned as both Deaf and Dumb is 20, or 10 less than the number returned in 1911. The Dumb Only numbered 11, which compares with 24 in 1911.

The number returned as Blind has increased from 48 in 1911 to 69 in 1926.

The total number of persons who have been classified as Crippled is 272, comprising 152 males and 120 females. It has not been found possible to test the reliability of this figure, and it should be accepted with due reserve, both on account of the broad interpretation which necessarily had to be placed on the term "crippled" for classification purposes, and because of a possible reluctance on the part of some crippled persons to disclose their infirmity by stating it on the census schedule.

Of the 110 persons returned as mentally afflicted only 1 was enumerated in an institution. In 1911 the persons returned as Lunatic or Idiot numbered 99. (It will be seen from Table 9 that there is no Lunatic Asylum in the County).

Particulars of the sex, age, and marital condition of persons suffering from infirmities will be found in Table 20.

TABLE 3.—Area, Population, Houses, Accommodation, and Valuation.

County, Urban District, Rural Districts, District Electoral Divisions, Townlands, etc.

- DEFINITIONS.— 1. Definitions of the terms "Area," "Population," "Houses," "Inhabited," "Private Families," "Rooms," and "Rateable Valuation" will be found on pages vi to viii.
 2. The 1911 figures throughout are for the County and its administrative divisions as constituted at the date of the 1926 Census. (See note on Administrative Divisions, page vi.)
 3. The Towns shown in this table in *italics* have no defined boundaries, but comprise groups of 50 houses and upwards, as determined by the enumerator.
 4. Dots (.) indicate nil (0), and dashes (—) indicate that information cannot or is not intended to be given.

- ARRANGEMENT.—1. Urban Districts are in alphabetical order followed by Rural Districts in a similar order.
 2. District Electoral Divisions are arranged in alphabetical order under each Urban and Rural District.
 3. Within each District Electoral Division, Townlands are shown in alphabetical order under the Dispensary District in which they are situated. For entire Dispensary Districts see Table 4.
 4. Where references to other D.E.D.'s are given in footnotes the D.E.D. reference numbers are added in brackets.

ABBREVIATIONS.— D. = Dispensary District; D.E.D. = District Electoral Division.

TABLE 5.—Area, Population, Houses, Accommodation, and Valuation.

County, County Electoral Divisions, and District Electoral Divisions.

DEFINITIONS.— 1. Definitions of the terms "Area," "Population," "Houses," "Inhabited," "Private Families," "Rooms," and "Rateable Valuation" will be found on pages vi to viii.

2. The 1911 figures throughout are for the County and its administrative divisions as constituted at the date of the 1926 Census. (See note on Administrative Divisions, page vi.)

3. Dots (.) indicate nil (0), and dashes (—) indicate that information cannot or is not intended to be given.

ARRANGEMENT.—1. County Electoral Divisions are in alphabetical order, and, under each of these, District Electoral Divisions are arranged in a similar order.

2. The reference in the second column of the Table is to the serial number prefixed to the name of each District Electoral Division in the first column of Table 3.

ABBREVIATIONS.—C.E.D.=County Electoral Division: D.E.D.=District Electoral Division.
