**PART II—TABLES**

<i>Table No.</i>	<i>Subject of Table</i>	<i>Areas for which statistics are stated</i>	<i>Page</i>
1	Occupations: Population aged 15 and over by Occupation and Status	Northern Ireland	2
2	Economic Activity and Status: Males by Age, Females by Age, Married Females by Age	Northern Ireland	6
3	Occupations: Males by Age, Females by Age and Marital Condition	Northern Ireland	8
4	Occupation and Status	Local Authority Areas	26
5	Self-employed: Males – Occupation by Age Females – Occupation by Age and Marital Condition	Northern Ireland	82
6	Apprentices, Articled Clerks and Formal Trainees: Males – Occupation by Age Females – Occupation by Age and Marital Condition	Northern Ireland	85
7	Family Workers: Males – Occupation by Age Females – Occupation by Age and Marital Condition	Northern Ireland	88
8	Total Employees (including Managers, Foremen, etc.): Males – Occupation by Age Females – Occupation by Age and Marital Condition	Northern Ireland	90
9	Out of Employment: Males – Occupation by Age Females – Occupation by Age and Marital Condition	Northern Ireland	102
10	Industry: Males by Age Females by Age and Marital Condition	Northern Ireland	114
11	Industry by Sex and Area of Workplace	Local Authority Areas	126
12	Industry by Status and Sex	Northern Ireland	168
13	Industry by Occupation by Sex	Northern Ireland	174
14	Hours worked by Age, Sex and Married Females	Northern Ireland	249
15	Employed Population: Occupation One year before Census by Occupation at Census and Sex	Northern Ireland	250
16	Persons aged 15 and over by Socio-economic Group, Sex, Age and Marital Condition	Northern Ireland	300
17	Persons aged 15 and over Economically Active and Retired: Social Class by Sex, Age and Marital Condition	Northern Ireland	303

## 1971 CENSUS

### Programme of Census Reports

**1. A Preliminary Report** on the 1971 Census was published in October, 1971, and contained a brief statistical commentary and provisional figures of the population, private dwellings and private households for all local authority areas (counties, county boroughs, municipal boroughs, urban and rural districts) and population figures for small towns and villages with 50 or more houses but having no defined boundaries.

#### **2. County Reports**

Reports were published for each of the Counties of Fermanagh, Tyrone, Londonderry (including Londonderry County Borough), Armagh, Down, Antrim and the County Borough of Belfast. The tables gave figures for counties, local authority areas, wards, district electoral divisions and towns and villages with 50 or more houses. The subjects covered were population and area (hectares); sex, age and marital condition; birthplace; religion; private dwellings, households, tenure and amenities; private motor cars and garaging; economically active persons and their sex and occupational status.

#### **3. Summary Tables**

Summary tables gave summaries of the information contained in the County Reports for Northern Ireland. Additionally, this report gave statistics covering the same subjects included in the County Reports for the new local authority areas which became functional on 1st October, 1973.

#### **4. Housing and Household Composition Tables**

The Housing Tables contained tabulations, not covered by the County Reports, on dwellings, households, tenure, household amenities, cars and garaging. Most tables referred to Northern Ireland but some tables included figures for local authority areas. The Household Composition Tables provided information on the composition and social and economic characteristics of households.

#### **5. Economic Activity Tables**

The Economic Activity Tables give statistics of the occupied population based on their personal occupation and the employed population classified according to the branches of the industry in which they are employed with reference to age, marital condition, employment status, socio-economic group, etc. Most tables refer to Northern Ireland but some tables cover local authority areas.

#### **6. Workplace and Transport to Work Tables**

These tables contained details of the resident population and the population employed in each area, the main workplace movements from one area to another and the main means of transport to work used for such movements.

#### **7. Migration Tables**

These tables gave statistics of the numbers and characteristics of people who changed their usual residence in the year or in the five years before Census day with the details of their age, sex, marital condition, area of previous residence; and of the number and characteristics of migrant households.

#### **8. Religion Tables**

The Religion Tables gave, by the main religious denominations, details of the people by sex, age, marital condition, occupation, industry and socio-economic group; and the numbers and characteristics of households.

#### **9. Education Tables**

These tables gave details of the age, sex, occupation and industry of those people who had obtained any academic or vocational qualification and details of the type level and subject of the qualification held.

#### **10. Fertility Tables**

The Fertility Tables gave statistics derived from information supplied for married women under 60 years of age at Census about the date of marriage and the number and spacing of children born alive to them in marriage.

## ECONOMIC ACTIVITY TABLES

### General Explanatory Notes

The economic activity information collected at the Census was in respect of persons aged 15 years and over, and related to the activity during the week ended 24 April 1971, i.e. the week preceding census day.

The tables containing statistics on occupation and status are presented at Northern Ireland and local authority area level. There are a number of occupation tables dealing with individual status groups.

Tabulations on industry deal with the employed population. In addition to tabulations containing classifications by industry and other characteristics such as status, marital condition, etc., industry is cross-classified by occupation.

#### Census Population

The 1971 Census population comprises all persons, irrespective of their usual address or nationality, who spent census night in the area of enumeration. Members of the Armed Forces (including those of Commonwealth and foreign countries except personnel aboard foreign naval vessels) are included. Persons travelling on census night were enumerated with the population of the district in which they arrived the next day unless they had already been enumerated elsewhere. Persons on vessels at moorings or anchorages in Northern Ireland waters or on board ships on coastwise voyages to Northern Ireland ports were counted as part of the population of the district containing the mooring, anchorage or arrival port. (The enumerated population excludes persons who, although usually resident in the area, spent census night elsewhere. People on night work were regarded as present in their homes for census purposes).

#### Population covered in this Report

The statistics in this report refer to the population aged 15 years and over who were stated to be usually resident in Northern Ireland.

Persons who usually live outside Northern Ireland are excluded. Members of the armed forces stationed in Northern Ireland are included.

#### Economic Position

The Classification by Economic Position divides the economically active from the inactive and provides further sub-division of these groups as follows:—

##### Economically Inactive

- (a) **Retired** means formerly occupied persons who have ceased working and are no longer seeking further employment. Housewives and persons engaged in home duties are not classified as 'retired'.
- (b) **Students** are persons in full-time attendance at an educational establishment, irrespective of whether or not they have part-time or seasonal employment.
- (c) **Others economically inactive** – persons who were never in employment and those not seeking employment. Included are persons of independent means, housewives and others engaged in unpaid domestic duties, the permanently sick or disabled, residents of chronic sick and psychiatric hospitals and prisoners who were serving a sentence of six months or more. Trainees in Government training centres were by convention included in this group.

##### Economically Active

- (a) **In employment** includes those who had a job or worked for payment or profit during the week ended 24 April 1971. Included are own-account workers, part-time workers, casual or temporary workers and persons working in a family business. Persons temporarily away from work during the week because of holidays, sickness or injury, strikes or industrial disputes and temporary laid-off are counted as in employment if their jobs are awaiting them when they are in a position to resume work.
- (b) **Out of employment** includes persons actively seeking work, persons prevented from seeking work by temporary sickness and those who had found a job but were to start work after census day.

#### Employment Status

The classification of employment status divides the employee from the self-employed as follows:—

##### Self-employed

**Self-employed without employees** – includes persons not employed by any person or company and persons working in their own home for an employer (outworkers). All parochial clergy and members of a partnership without paid employee(s) are also included. Domestic servants do not count as employees for determining whether or not a self-employed person has employees.

##### Self-employed with employees

Large establishments. A self-employed person, provided he is not a farmer, forester, market-gardener or fisherman, is assigned to this group if he employs 25 or more persons.

Small establishments. A self-employed person with fewer than 25 employees is assigned to this group. All self-employed farmers, foresters, market-gardeners and fishermen are included.

**Employees.** Persons who have not been classified as self-employed.

**Managers** – includes all employees coded to occupation groups 173-180 (Administrators, and Managers), all employees not being self-employed coded to groups 002 (farmers, farm managers, market-gardeners), 115 (Deck, engineering officers and pilots, ship), 138 (Office Managers), 143 (Proprietors and Managers, sales), 149 (Finance, insurance brokers, financial agents), 154 (Publicans, innkeepers), 156 (Proprietors and managers, boarding houses and hotels), 159 (Restaurateurs) and 171 (Proprietors and managers, service, sport and recreations); persons occupied as managers, persons returned as managers and other persons of equivalent rank whose occupation code is preceded by 'M' in the occupation index and all persons returned as directors of companies, except professional workers with occupation groups 181, 182, 184, 186, 195-198, 200-205, 209-214 and 217, who are excluded.

**Large establishments.** This includes managers in establishments (except farms) employing 25 or more persons, all civil servants, local government officials and ships' officers coded as managers, aircraft captains and flight managers.

**Small establishments.** This includes all persons of managerial status not included in the 'Large establishment' category and in particular all farmers, trawler skippers and foresters.

**Foremen and supervisors.** This group includes all persons described on the census form as foreman, boss, chargehand, chargeman, gaffer, ganger, headman, overlooker, overman, overseer, supervisor, and all persons whose occupation code is preceded by 'F' in the index of occupations.

(a) **Manual:** Persons supervising manual occupations

(b) **Non-manual:** Others

**Apprentices, artied clerks and formal trainees** – includes persons undergoing training for a period fixed in advance, leading to recognition as a skilled worker or technician and/or to a recognised technical, commercial or professional qualification or management post. The status apprentice is applied only to economically active persons in employment.

**Family workers.** Persons employed by and living in the same household as a relative. Family workers who are managers, foremen or apprentices are coded as managers etc., and not as family workers. Professional workers are never coded as family workers.

**Other employees.** This status is given to all employed persons not elsewhere classified.

### Social Class

The unit groups of the Occupational Classification are arranged into broad categories to form the Social Classes as follows:—

- I Professional, etc., occupations
- II Intermediate occupations
- III Skilled occupations – non-manual  
– manual
- IV Partly skilled occupations
- V Unskilled occupations

The unit groups included in each of these categories have been selected so as to ensure that, so far as is possible, each category is homogeneous in relation to the basis criterion of the general standing within the community of the occupations concerned. The criterion is naturally correlated with other factors such as education and economic environment, but it has no direct relationship to the average level of remuneration of particular occupations. Each occupational unit group has been assigned as a whole to a Social Class, and it is not a specific assignment of individuals based on the merits of a particular case.

The Social Class appropriate to any given combination of occupation and employment status (i.e., whether self-employed, manager, foreman or other employee) is derived as follows:—

- (a) each occupation is given a basic Social Class
- (b) persons of foreman status whose Social Class is IV or V are allocated to Social Class III
- (c) persons of manager status are allocated either to Social Class II or III, the latter applying if the basic class is IV or V, except those in occupational unit groups 003, 004 and 006 who are allocated to Social Class II.

### Socio-economic Groups

It is intended that each socio-economic group should contain people whose cultural and recreational standards and behaviour are similar. As it is not practicable to ask direct questions about these subjects in a population census, the allocation of occupied persons to socio-economic groups is determined by considering their employment status and occupation.

This classification is normally applied only to economically active persons and retired persons. When extended to cover the remainder of the population 'Students' and 'Others economically inactive' are shown separately.

The socio-economic groups, with brief definitions are:—

**(1) Employers and managers in central and local government, industry, commerce, etc.**

**Large establishments** – persons who employ others or generally plan and supervise in non-agricultural enterprises employing 25 or more persons.

**(2) Employers and managers in industry, commerce, etc.**

**Small establishments** – As in Group (1) but in establishments employing fewer than 25 persons.

**(3) Professional workers – self-employed**

Self-employed persons engaged in work normally requiring qualifications of university degree standard.

**(4) Professional workers – employees**

Employees engaged in work normally requiring qualifications of university degree standard.

**(5) Intermediate non-manual workers**

Employees engaged in non-manual occupations ancillary to the professions, not normally requiring qualifications of university degree standard; persons engaged in artistic work and not employing others thereat; self-employed nurses, medical auxiliaries, teachers and work study engineers and technicians are included, and employees (other than managers) engaged in occupations included in group (6), who formally and immediately supervise others engaged in such occupations.

**(6) Junior non-manual workers**

Employees, not exercising general planning or supervisory powers, engaged in clerical, sales and non-manual communications and security occupations, excluding those who have additional and formal supervisory functions. (These are included in Group 5).

**(7) Personal service workers**

Employees engaged in service occupations caring for food, drink, clothing and other personal needs.

**(8) Foremen and supervisors – manual**

Employees (other than managers) who formally and immediately supervise others engaged in manual occupations, whether or not themselves engaged in such occupations.

**(9) Skilled manual workers**

Employees engaged in manual occupations which require considerable and specific skills.

**(10) Semi-skilled manual workers**

Employees engaged in manual occupations which require slight but specific skills.

**(11) Unskilled manual workers**

Other employees engaged in manual occupations.

**(12) Own account workers (other than professional)**

Self-employed persons engaged in any trade, personal service or manual occupation not normally requiring training of university degree standard and having no employees other than family workers.

**(13) Farmers – employees and managers**

Persons who own, rent or manage farms, market gardens or forests, employing people other than family workers in the work of the enterprise.

**(14) Farmers – own account**

Persons who own or rent farms, market gardens or forests and having no employees other than family workers.

**(15) Agricultural workers**

Employees engaged in tending crops, animals, game or forests, or operating agricultural or forestry machinery.

**(16) Members of armed forces**

**(17) Occupation inadequately described**

Full details of the allocation of each occupation to the appropriate Social Class and Socio-economic group are given in 'Classification of Occupations, 1970' published by HMSO.

### **Classification of Occupations**

The occupation of a person is the kind of work which he or she performs, due regard being paid to the conditions under which it is performed; this alone determines the particular group in an occupation classification to which the person is assigned. The nature of the factory, business, or service in which the person is employed has no bearing upon the classification of his occupation, except to the extent that it enables the nature of his duties to be defined more clearly. This will perhaps be made clearer by an example. A crane driver may be employed in a shipyard, an engineering works or in building and construction, but this has no bearing upon his occupation and all crane drivers should be classified to the same occupational group.

The main purpose of the Classification of Occupations is to provide groups with at least one common characteristic. The basic common factor of all groups is the kind of work done and the nature of the operation performed. But if, by reason of the material worked in, the degree of skill involved, the physical energy required, the environmental conditions, the social economic status associated with the occupation, or any combination of these factors, unit groups based solely on the kind of work done seems too comprehensive, they were further broken down on the basis of these other factors in order to identify what are substantially separate occupations.

Certain limiting conditions have also operated, e.g., that the identification of a unit group is likely to be tolerably complete and accurate from the limited information obtained from a Census, that there is sufficient potential interest in the group to justify separate identification, and that statistics for the group could not be obtained from cross-classification of occupation by employment status or industry.

The unit groups obtained by the above process have been grouped into orders; these larger groups, like the unit groups, have certain broad features of occupation in common. Certain groups of persons in employment, in particular the self-employed and the managers, give rise to difficult conceptual problems:

**Self-employed.** Even within the same field of economic activity self-employed persons range from the working craftsman to the owner and manager of a large industrial concern, extremes for which a single occupational code is not appropriate. But there is no general rule that can be formulated about the size of the undertaking that requires the owner to be occupied mainly on managerial work (see also the remarks that follow under Managers) and, moreover, the available data affords no indication of the size of the undertaking involved. As most self-employed persons control or operate only small enterprises, all persons in the self-employed category are excluded from the Order XXIV (Administrators and Managers) and assigned to appropriate groups elsewhere.

Where self-employed persons form an important group whose occupational assignment is not self-evident, a specific mention has been made in the occupational unit group concerned. Owners of services, such as typewriting, office cleaning, car hire, with regard to whom there is no evidence that they perform the actual work associated with such services, are classified in group 150 (Salesmen, services, valuers, auctioneers) unless specifically mentioned elsewhere.

**Managers.** The growing recognition of management as an occupation in itself, which is to a certain extent independent of the particular field in which it is exercised, has led to all managers being included in Order XXIV except for a few stated exceptions. These exceptions arise because in some fields, mainly services, the title manager is given to persons with comparatively limited responsibilities, and also because in some cases the main activity is that of an occupation other than management, and it is thought to be more useful and appropriate not to assign such persons to the Management Order. In the first category would come the shop manager and in the second the ship's captain. Such persons are given the employment status code of manager.

Most employed professional workers in industry are commonly regarded as closely associated with management. Professionally qualified persons employed in establishments engaged in that profession, or in those sections having mainly advisory or consultative functions in other establishments, e.g., solicitor managing for a firm of solicitors, engineer managing the design department of a productive establishment, are excluded from Order XXIV but other professionally qualified persons in managerial posts are included. Directors or company directors showing professional qualifications or other occupations are classified according to their qualification or occupation, except managing directors which are included in Order XXIV. The intention is that professionally and technically qualified persons should be classified as managers if in actual charge, at a level above that of works foreman, of the execution of a task either directly or through subordinate managers, unless the task so supervised is a professional or technical service.

**Foremen.** Foremen, other than road and rail transport operating foremen who are classified in group 125 (Inspectors, supervisors, transport), are classified with the workers they control and distinguished in the status coding. Where a foreman controls a variety of workers, or is identifiable only by the branch of industry he is classified in the group of 'workers n.e.c.' most appropriate to the branch of industry. Thus a pottery works foreman is classified in 017 (glass and ceramic production process workers n.e.c.), a clothing factory foreman is classified in 077 (Clothing and related products makers n.e.c.), and a food factory foreman is classified in 081 (Food processors n.e.c.). Such foremen in the engineering industries are, however, coded in 031 (Foremen in engineering and allied trades).

**Labourers.** The groups 107-114 assigned to labourers are strictly limited to persons performing occupations requiring little or no training or experience and for this reason certain groups of persons who have some degree of skill but are returned as labourers, e.g., fitters' labourers, are excluded.

Allocation of these groups is on a strictly industrial basis, thus departing from the general basis of classification elsewhere; the industry concerned is that of the 'establishment' taken as a whole. This split is purely for convenience and, except that foundry labourers are separated into group 109, the resulting information could also be obtained from a cross-classification by industry.

**Apprentices.** Articled pupils and learners are classified to the group appropriate to those whose training is completed. Graduate and student apprentices are classified to the professional occupation for which they are training or, if this is unknown, to the groups 'Engineers n.e.c.' (Code 201).

**Armed Forces.** For various economic activity and social classifications it is intended to keep distinct all uniformed members of the Services, and medical personnel and chaplains are accordingly assigned to the groups for Armed Forces (codes 221, 222).

An individual's occupation was obtained from the answer given to question B14 on the census form which read as follows:—

Question B14 — What was the person's occupation?

Give full details, stating where appropriate, the material worked or dealt in (See Note B14).

The following note was given to help in answering the above question:—

Question B14 — Occupation

Full and precise details of occupation are required.

If a person's job is known in the trade or industry use that name.

Terms such as Scientist, Technician, Engineer, Machinist, Fitter, Foreman, Checker, should not be used by themselves; greater detail is required, for example:—

Woodwork machinist, Civil engineer, Toolroom foreman, etc.

For civil servants, local government officials and other public officials, give their rank or grade.

The answers to this question had to be assigned to the correct code in the classification. This was done by reference to the index of occupations titles published in the 1970 Classification of Occupations. If the title was not listed, a code was allocated in accordance with the principles of the classification.

### **Classification of Industries**

In the tables in this report, industries are classified according to the revised 'Standard Industrial Classification' (HMSO 1968). The following extract from the preface to this publication explains the basis of the classification and its application to establishments.

#### **'The Basis of Classification**

3. The Classification is based on industries and not on occupations. All persons (including administrative, technical, clerical and ancillary staffs) employed in a 'unit' of industry are included, irrespective of their occupations, in the figures of employment for the industry to which the 'unit' is classified. The classification is also based on industries without regard to who owns or operates them. Thus manufacturing 'units' owned or operated by the Central Government are classified in the same way as those in private hands and are not included under 'National Government Services'. Similarly the transport services operated by local authorities are included under 'Transport' and not under 'Local Government Service'.
4. The Classification has been prepared to conform with the organisation and structure of industry and trade as it exists within the United Kingdom. All relevant factors such as the commodity produced or service given, the raw materials used and the nature of the process or the work done, have been taken into consideration.
5. The Classification is arranged in a list of industry headings which show the minimum detail in which statistics by industry will normally be provided, and which are therefore called Minimum List Headings. The Headings of related industries are grouped into Orders.

### Classification of Establishments

6. For the purpose of this classification the unit taken is the 'establishment'. An establishment is the smallest unit which can provide the information normally required for an economic census, for example, employment, expenses, turnover, capital formation. Usually the principal activities carried on in an establishment fall within a single heading of the Classification (e.g., steel making or sugar refining). Typically, the establishment embraces all the activities carried on at a single address, e.g., a farm, a mine or a factory, including those which are ancillary to the principal activities.
7. Frequently, distinct activities characteristic of different industries are carried on at one address, e.g., cotton weaving and the making up of household textiles, but normally these are not classified separately, and the whole establishment is classified according to the main activity. If, however, the required range of data can be provided for each activity, each is taken to constitute a separate establishment.
8. Sometimes activities which are conducted as a single business are carried on at a number of addresses. Where this is so, businesses are asked to provide the full range of separate information in respect of each address, whether or not the activities are different. Their activities may, however, be integrated to such an extent that they constitute a single establishment. In that case, the establishment is defined to cover the combined activities at these addresses, which in the case of manufacturing establishments would normally be in close proximity. For some subjects, however, e.g., employment, separate data will be available for each address. In such circumstances each address will be identified as a 'local unit' and can be classified in either of the following ways according to the purpose for which statistical data are needed, viz., (a) to the classification of the establishment of which it is part or (b) to the classification appropriate to its own major activity. As appropriate, statistics will be prepared on either or both bases of classification.
9. Activities which are ancillary to the main activities of a business are most frequently transport, wholesale or retail distribution, construction, power generation, and research and development. The classification of these ancillary units, other than separate offices, is determined according to the circumstances, as follows:—
  - (a) If a full range of information can be provided they are counted as separate establishments and classified according to their own activities.
  - (b) Where a full range of information cannot be provided the establishment within which they are integrated is defined to include them. Where they are carried on at a separate address, they are, however, separately identified as local units classified in accordance with the principle outlined in paragraph 8.
10. A number of businesses have Head Offices or other Central Offices at separate locations from those of the establishments at which the main activities of the business are carried out. These separate offices present a special problem, since they do not have any measurable output of their own but contribute to that of the establishment(s) which they serve. The treatment of these offices is described below.

Central offices of businesses operating in the United Kingdom are classified as follows:—

- (1) If all or most of the activities of the establishments served by the office are appropriate to a single Heading, the office is treated as a local unit of an establishment classified in that heading.
- (2) If all or most of the activities of the establishments served by the office are appropriate to a single Order the office is treated as a local unit of an establishment classified in the Heading within that Order appropriate to the largest part of these activities.
- (3) If neither (1) nor (2) above applies, the office is treated as an independent establishment and classified in Heading 866.

Any activities of branches or subsidiary companies operating overseas, with which part of the business of a central office is concerned, are regarded as falling outside the Order(s) appropriate to the home activities of the business but are taken into account in applying the foregoing rules to the office.

The United Kingdom offices of businesses operating mainly abroad are classified in Heading 866.

11. Some special points should be mentioned:—

- (a) Merchanted activities. Establishments mainly engaged in merchanting, broking, importing and exporting are classified in the distributive trades, and not in the industry or trade producing the goods in which they deal.
- (b) Repair work. Most kinds of repair work are associated with activities which are classified either to manufacturing or to distribution and in these cases the underlying principle of classification is that where the bulk of the repair work on goods of any particular type is carried out by manufacturers, any establishments specialising in the repair of these goods are classified to manufacturing. Where, however, most of the repairs are carried out at establishments whose main business is distribution the specialist repair establishments are also classified to distribution.

Thus establishments repairing radio and television sets, watches and clocks, furniture, etc., are classified to the distributive trades. Establishments engaged in the repair of ships, locomotives, aircraft, and most kinds of plant and machinery are classified to manufacturing industry.

In a few cases repair work is not classified to either manufacturing or distribution. Establishments engaged in the repair and maintenance of buildings are included in Construction. The activities of motor repairing and boot and shoe repairing, which are regarded as services, are sufficiently extensive and distinct to be treated as industries in themselves although particular establishments may engage to some extent in manufacturing or distributive activities. Provision is made for these two kinds of repair work in Miscellaneous Services.

- (c) Installation work. The installation of machinery equipment, etc., is an activity which is normally carried out by an establishment having a different major activity, which decides its industrial classification. Where, however, installation is the only, or major activity of a separate establishment or department for which the full range of data can be provided, it should be classified to an appropriate Heading in the following Orders, according to the kind of service provided:—

Construction—the installation of items or equipment which can be regarded as forming an integral part of the building, e.g., an electrical wiring system, heating and ventilating equipment.

Distribution—the installation of items which require little more than the connection of the equipment to the mains, e.g., domestic washing machines, television sets.

Manufacturing—the installation of plant and machinery, e.g., a computer, a telephone exchange system.”

The basic minimum list of industrial headings is used for the industrial analysis tables in this report, including the category ‘Industry Inadequately Described’ and sub-divisions of Minimum List Headings 001 (Agriculture and Horticulture), 872 (Educational Services), 874 (Medical and Dental Services), 879 (Other Professional and Technical Services), 899 (Other Services), 901 (National Government Services), and 906 (Local Government Services).

The allocation of an employed person (a person who had a job at some time in the week before census) to an industry was based on the answer given to question B13 on the census form. The question was worded as follows:—

- Question B13 — What was the name and business of the person’s employer  
(if self-employed the name and nature of the person’s business)?  
Give the trading name if one was used.  
(See Note B13)
- (a) Name of business
  - (b) Nature of business

The following note was given with this question:—

**B13 — Employer’s name and business**

Describe the business fully and try to avoid abbreviations or initials.

General terms such as ‘Manufacturer’, ‘Merchant’, ‘Agent’, ‘Broker’, ‘Dealer’, ‘Engineering’, ‘Shop-keeper’, are not enough by themselves and further details should be given about the articles manufactured or dealt in.

For civil servants, local government officials and other public officials give the name of the Government Department, local authority or public body and the branch in which they are employed.

For people employed solely in private domestic service, write ‘Private’ in answer to this question.

Industry codes were assigned by reference to a pre-coded list of names and addresses of employers. If the employers’ names and addresses were not on the list, the employer’s business was looked up in an alphabetical list of industries and the code taken from that list.

**Place of Work and Place of Residence**

Most tables relate to Northern Ireland as a whole and the distinction between place of work and place of residence or place of enumeration does not arise.

However, Table 4 classifies people to the local authority area of enumeration (which except for a very small number of cases represents the place of residence). Table 11 shows the working population in each local authority area. People with ‘no fixed place of work’ or coded as ‘workplace not stated’ were regarded as working in the area of usual residence.

**Part-time Workers**

These are employed persons whose employment in the week preceding the census was for less than the full working week in the occupation for reasons other than strikes, lock-outs, short-time working, sickness or holidays.

**Presentation Conventions**

A dash (—) indicates the entry is zero.

A blank indicates that a particular combination of line and column is impossible.

In the presentation of rates, a rate shown as 0 indicates that the actual rate is less than one half of a unit but is not zero.

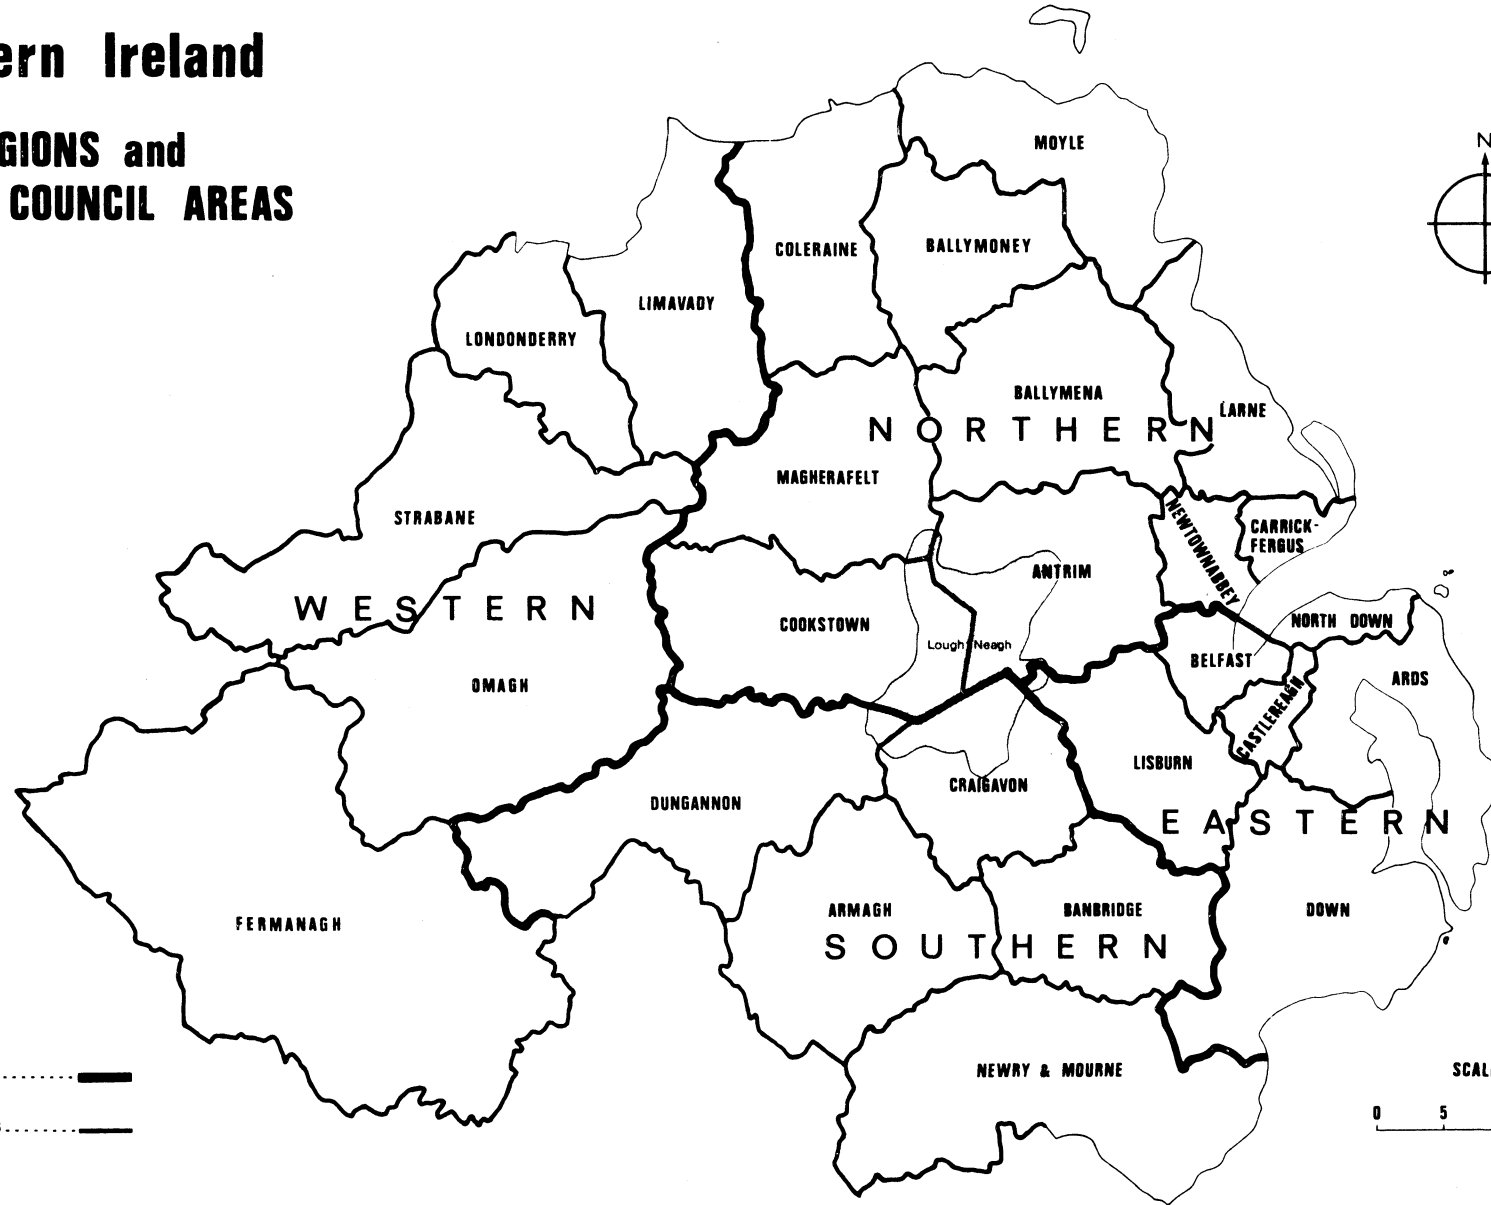

**Areas for which statistics are presented**

The local authority areas for which statistics are given comprise the administrative counties, county boroughs, municipal boroughs, urban districts and rural districts as existing at census date. A classification of economic activity by the new District Council Areas which became functional on 1st October 1973 is not available. These new Areas were not constituted until after the coding process of the census data had been completed.

# 1971 CENSUS — NORTHERN IRELAND

## H Form For Private Households

To the Head (or Acting Head) of the Household.

Please complete this form and have it ready for collection on Monday, 26th April. If you need help do not hesitate to ask the enumerator.

The enumerator may ask you any questions necessary to help him to complete or correct the form.

If a house, flat, apartment, etc., is occupied by two or more households, then each occupier must make a separate Return applicable to his accommodation. Boarders are not to be considered as separate occupiers but as part of the household with which they board.

The information you give on the form will be treated as **CONFIDENTIAL** and used only for compiling statistics. No information about named individuals will be passed by the Census Office to any other Government Department or any other Authority or person. If anyone in the census organisation improperly discloses information you provide, he will be liable to prosecution. Similarly you must not disclose information which anyone (for example, a visitor or boarder) gives you to enable you to complete the form.

The legal obligation to fill in the whole form rests on **YOU**, but each person who has to be included is required to give you the information you need. However, anyone who wishes can ask the enumerator or the local Census Officer for an individual form which can be returned direct to the enumerator or local Census Officer and then you need answer only questions B1 and B3 for that person. There is no penalty for refusing to state religious profession.

**PLEASE TAKE NOTE**

There are penalties of up to £10 for failing to comply with the requirements described above, or for giving false information.

When you have completed the form, please sign the declaration at the foot of page 5.

# PART B

Complete a line for:—

- a. each person who spends Census night 25/26 April 1971 in this household, and
- b. each person who arrives on Monday 26 April and has not been included on a Census form elsewhere.

<p>Fill in this column first for <b>every person present.</b> (see note above)</p> <p>Write <b>name and surname.</b></p> <p>Begin with the head of the household or other person acting as head.</p> <p><i>For a baby who has not yet been given a name write 'Baby' and the surname.</i></p>	<p>a. Write the <b>sex</b> of the person, (M for Male or F for Female).</p> <p>b. Write the <b>date of birth.</b></p>	<p>Write '<b>Head</b>' for the head of the household and <b>relationship</b> to the head for each of the other persons: for example, 'Wife', 'Son', 'Daughter-in-Law', 'Visitor', 'Paying Guest'.</p>	<p>If the person usually lives here, write '<b>Here</b>'. If not, write the person's <b>usual address.</b></p> <p><i>For students and children who are away from home during term give their home address.</i></p> <p><i>For boarders write '<b>Here</b>' only if they consider this their usual address.</i></p> <p><i>For persons with no settled address write '<b>None</b>'.</i></p>	<p>Write 'Single', 'Married', 'Widowed' or 'Divorced' as appropriate.</p> <p><i>If separated and not divorced, write 'Married'.</i></p>	<p>If born in Northern Ireland, write the name of the <b>County</b> of birth. (If born in Belfast, write 'Belfast').</p> <p><i>If born elsewhere give the present name of the country.</i></p>	<p>State the particular <b>Religion, Religious Denomination or Body</b> to which the person belongs.</p> <p><i>(The term 'Protestant' should not be used alone and the title of any denomination should be given as precisely as possible).</i></p>	<p>Was the person's <b>usual address one year ago (on 25th April, 1970)</b> the same as that shown by the answer to <b>question B4?</b> Write '<b>Yes</b>' or '<b>No</b>'.</p> <p>If 'No' write also the usual address on 25th April, 1970.</p> <p><i>For a child now under one year of age, write '<b>Under one</b>'.</i></p>	<p>Was the person's <b>usual address five years ago (on 25th April, 1966)</b> the same as that shown by the answer to <b>question B8?</b> Write '<b>Yes</b>' or '<b>No</b>'.</p> <p>If 'No' write also the usual address on 25th April, 1966.</p> <p><i>For a child now under five years of age, write '<b>Under five</b>'.</i></p>

**B12 Job last week**

A job means any work for payment or profit. In particular it includes:

- work on a person's own account
- part-time work if only for a few hours, such as jobbing gardening or paid domestic work
- casual, temporary or part-time work of any kind
- unpaid work in a family business including a shop or farm.

Unpaid work, other than in a family business does not count as a job. Paid work performed by full-time students in their spare time or during holidays does not count as a job.

**B13 Employer's name and business**

Describe the business fully and try to avoid abbreviations or initials.

General terms such as 'Manufacturer', 'Merchant', 'Agent', 'Broker', 'Dealer', 'Engineering', 'Shopkeeper', are not enough by themselves and further details should be given about the articles manufactured or dealt in.

For civil servants, local government officials and other public officials give the name of the Government department, local authority or public body and the branch in which they are employed.

For people employed solely in private domestic service, write 'Private' in answer to this question.

For members of Armed Forces see special note overleaf.

**B14 Occupation**

Full and precise details of occupation are required.

If a person's job is known in the trade or industry by a special name use that name.

Terms such as 'Scientist', 'Technician', 'Engineer', 'Machinist', 'Fitter', 'Foreman', 'Checker', should not be used by themselves; greater detail is required, for example:

Woodwork machinist, Civil engineer, Toolroom foreman, etc.

For civil servants, local government officials and other public officials give their rank or grade.

**B15 Self-employed**

'Self-employed, employing others', means having one or more employees other than 'Family workers'. A 'Family worker' is one who lives in the same household as the employer and is related to him.

**B16 Apprentices, etc.**

Answer this question only for a person who is undergoing training for a period fixed in advance and leading to recognition as a skilled worker or technician or to a recognised technical, commercial or professional qualification or managerial post.

Do not answer this question for a young person undergoing training who has not yet entered into formal apprenticeship.

**B18 Place of Work**

For people who do not work regularly at one place or who travel during the course of their work (for example, sales representatives, seamen and certain building and transport workers):

- a. if they report daily to a fixed address or depot give that address.
- b. if they do not report daily to a fixed address or depot write 'No fixed place'.

For people such as building workers employed on a site for a long period give the address of the site.

**B19 Means of transport**

If the person uses different means of transport on different days give the means used most often.

Do not use terms such as 'Public transport' or 'Private transport' but give the actual means used, for example, 'Train', 'Public service bus', 'Employer's lorry', 'Car', 'Bicycle'.

If the person walks all or most of the way to work, write 'On foot'.

**Special Note for Members of Armed Forces**

At B13 give arm and branch of service.

At B14 give rank or rating only.

Questions B15, B16, B17 and B20 need not be answered.

**(Answers should be written on the line on which the person's name appears in column B1)**

**Answer questions B13-B15 in respect of the main employment last week, or of the most recent job if retired or out of work.**

For persons who have never had a job and for a housewife who did not have a job last week, write 'None' at B13

<p><b>Did the person have a job last week (the week ended 24th April 1971)?</b> (see note B12)</p> <p>Tick box 1 if the person had a job even if it was only part-time or if the person was temporarily away from work, on holiday, sick, on strike, or laid off.</p> <p>If the person did not have a job, tick whichever of boxes 2, 3, 4 or 5 is appropriate, state the reason if box 5 is ticked (for example, Housewife, Student, Permanently sick).</p>		<p>What was the <b>name and business</b> of the person's employer (if self-employed, the name and nature of the person's business)?</p> <p><i>Give the trading name if one was used.</i></p> <p>(see note B13)</p>	<p>What was the person's <b>occupation?</b></p> <p>Give full details, stating where appropriate, the material worked or dealt in.</p> <p>(see note B14)</p>	<p>Was the person an employee, or self-employed employing others (see note B15), or self-employed without employees?</p>
