1971 CENSUS

Programme of Census Reports

1. A **Preliminary Report** on the 1971 Census was published in October, 1971, and contained a brief statistical commentary and provisional figures of the population, private dwellings and private households for all local authority areas (counties, county boroughs, municipal boroughs, urban and rural districts) and population figures for small towns and villages with 50 or more houses but having no defined boundaries.

2. County Reports

There will be reports for each of the Counties of Fermanagh, Tyrone, Londonderry (including Londonderry County Borough), Armagh Down, Antrim and the County Borough of Belfast. The tables give figures for counties, local authority areas, wards, district electoral divisions and towns and villages with 50 or more houses. The subjects covered are population and area (hectares); sex, age and marital condition; birthplace; religion; private dwellings, households, tenure and amenities; private motor cars and garaging; economically active persons and their sex and occupational status.

3. Summary Tables

Summary Tables will give summaries of the information contained in the County Reports for Northern Ireland. Additionally, this report will give statistics covering the same subjects included in the County Reports for the new local authority areas which will come into being in 1973.

4. Housing and Household Composition Tables

The Housing Tables will contain tabulations, not covered by the County Reports, on dwellings, households, tenure, household amenities, cars and garaging. Most tables will refer to Northern Ireland but some tables will include figures for local authority areas. The Household Composition Tables will provide information on the composition and social and economic characteristics of households.

5. Economic Activity Tables

The Economic Activity Tables will give statistics of the occupied population based on their personal occupation and the employed population classified according to the branches of industry in which they are employed with reference to age, marital condition, employment status, socio-economic group, etc. Most tables will refer to Northern Ireland but some tables will cover local authority areas.

6. Workplace and Transport to Work Tables

These tables will contain details of the resident population and the population employed in each area, the main workplace movements from one area to another and the main means of transport to work used for such movements.

7. Migration Tables

These tables will give statistics of the numbers and characteristics of people who changed their usual residence in the year or in the five years before Census day with details of their age, sex, marital condition, area of previous residence; and of the number and characteristics of migrant households.

8. Religion Tables

The Religion Tables will give, by the main religious denominations, details of the people by sex, age, marital condition, occupation, industry and socio-economic group; and the numbers and characteristics of households.

9. Education Tables

These tables will give details of the age, sex, occupation and industry of those people who had obtained any academic or vocational qualification and details of the type level and subject of the qualification held.

10. Fertility Tables

The Fertility Tables will give statistics derived from information supplied for married women under 60 years of age at Census about the date of marriage and the number and spacing of children born alive to them in marriage

PART 1

Explanatory Notes and Definitions of Terms used in the Report

Area (hectares)

The figures, which have been supplied by the Ordnance Survey, relate to the various administrative and other divisions as constituted at the date of 1971 Census. Foreshore is excluded. The extent of areas covered by the large rivers, lakes and tideways are also excluded from the body of Table 4, but the total is given in a footnote thereto. A hectare is equivalent to 2.471 acres.

Population

The 1971 Census population comprises all living persons, irrespective of their usual address or nationality, who spent census night in the area of enumeration. Members of the Armed Forces (including those of Commonwealth and foreign countries except personnel aboard foreign naval vessels) are included. Persons travelling on census night were enumerated with the population of the district in which they arrived the next day unless they had already been enumerated elsewhere. Persons on vessels at moorings or anchorages in Northern Ireland waters or on board ships on coastwise voyages to Northern Ireland ports were counted as part of the population of the district containing the mooring, anchorage or arrival port. (The enumerated population excludes persons who, although usually resident in the area, spent census night elsewhere. People on night work were regarded as present in their homes for census purposes).

Population figures for the 1961 and 1966 Censuses are adjusted to relate to areas as constituted at the date of the 1971 Census. Figures for earlier censuses relate, generally, to areas as constituted at the respective census dates.

Dwellings

Dwellings are classified on the basis of instructions issued to the Census enumerators and which are summarised as follows:

Dwellings were normally private dwelling houses, bungalows, including prefabricated bungalows provided by a local authority, or flats with independent access to the street or to a common staircase or hall.

Where houses or other buildings had been adapted to provide residential accommodation in smaller units, these smaller units were regarded as dwellings if they were structurally separate, i.e., if such a unit had a separate front door to the street, or if access to the main door was gained by means of a common staircase or landing. In order for such a unit to count as a dwelling it also had to be self-contained, allowing movement between its rooms internally without making use of the common staircase or landing, and the household arrangements, viz., kitchen, bathroom and water closet were not shared with the occupants of another unit of accommodation in the building. Bed-sitting rooms (sometimes called flatlets) were not counted as separate dwellings.

An occupied dwelling is one in which at least one household was enumerated on census night.

An occupier absent dwelling is one in which at least one household usually, or occasionally, lives but was absent on census night.

A vacant dwelling was one which was fit or ready for habitation but was awaiting occupancy—this type of dwelling would invariably be unfurnished. Derelict or uninhabitable dwellings were ignored by the census enumerators.

Separate dwellings within non-private establishments

In these premises if a group of people were regarded as forming a private household their accommodation was regarded as constituting a dwelling even if it was not structurally separate and had access to the street only through the hotel, hospital, etc. Houses attached to hotels, hospitals, etc., were only regarded as dwellings if they were occupied by private households; if occupied by hotel guests or hospital patients they were counted as part of the non-private establishment. Married quarters in defence establishments were without exception counted as dwellings.

Non-permanent dwellings

Caravans or mobile structures and such non-permanent structures as huts, shacks, tents, etc., were treated as dwellings if they were some person's usual residence on census night. If such structures were vacant they were ignored by the enumerators.

Shared dwellings

A shared dwelling is a dwelling occupied by more than one private household. Whether or not a household shared a dwelling was ascertained by the enumerator. Households in shared dwellings are shown separately in some tabulations.

Private Households

The private household is the basic unit of enumeration in the census. A private household was defined as:—

- (a) any person living alone and providing his or her own meals; or
- (b) any group of persons, whether related or not, who live together, partaking of meals prepared together and benefiting from a common housekeeping.

A boarder having at least one meal a day with the household (breakfast is a meal for this purpose) counts as a member of the household. A lodger taking no meals with the main household counts as a separate one-person household, even if he shares kitchen and bathroom.

A person or group of people living in a non-private establishment were treated as a separate household if they were either:—

- (a) a family which does not normally depend on the establishment for the provision of meals; or
- (b) a person or group for whom the establishment does not provide any daily meals.

A private household had to have the exclusive use of at least one room. If two people shared one room, although each may have had separate catering arrangements, and did not have exclusive use of at least one other room they were treated as one household.

Rooms

The following question and notes were included on the Census H form for private households:—

How many rooms are there in your household's accommodation?

Do not count

- Bathrooms and toilets,
- small kitchens less than 6 feet by 6 feet,
- sculleries not used for cooking,
- c'osets, pantries and storerooms,
- landings, halls, lobbies or recesses,
- offices or shops used solely for business purposes.

Note

- A large room divided by a sliding or fixed partition should be counted as two rooms.
- A room divided by curtains or portable screens should be counted as one room.

In unshared dwellings, the head of the household completed the answer to this question. In shared dwellings, the enumerator was instructed to enquire of each household in the dwelling if any room was shared by another household. If any room was shared by two or more households he was further instructed to check the answer to the question and, if necessary, alter it to show the extent of the sharing.

In the tables classifying households by rooms occupied, any room shared by two or more households is allocated to one (usually the main) household to avoid the use of fractions and to ensure that the total number of rooms in the dwelling is not altered.

The enumerator provided an estimate of the number of rooms in vacant accommodation and in accommodation from which the occupier was absent on census night.

The 1971 Census definition of 'room' included all kitchens, provided they were at least 6 feet wide, whereas at the 1961 and 1966 censuses kitchens were only counted if regularly used for meals.

Tenure

Heads of households were required to indicate under the following headings how they occupied their accommodation:—

- (1) As an owner occupier (including purchase by mortgage)
- (2) By renting it from a local or public authority
- (3) As an unfurnished letting from a private landlord or company
- (4) As a furnished letting
- (5) In some other way

(Please give details, including whether furnished or unfurnished):

.....

If more than one box was ticked the census staff decided the most appropriate answer, and in the absence of any further information assigned to the lowest numbered category. If answer five applied and it was indicated that the accommodation was rented with a farm, shop or other business premises, or occupied by virtue of employment, the tenure was classified as renting unfurnished from a private landlord unless furnished was specified, when the tenure was treated as rented furnished.

A shared dwelling was classified according to the tenure stated by the main household, the latter being identified on the basis of a graded list of tenures, 'owner occupied' taking precedence over 'rented' and 'rented unfurnished' taking precedence over 'rented furnished'.

Household Amenities

The amenities on which information was collected in respect of each private household are listed below. The householder was required to indicate whether individual amenities were used only by the household, shared with another household or were not available:—

- (a) A cooker or cooking stove with an oven
- (b) A kitchen sink permanently connected to a water supply and a waste pipe
- (c) A fixed bath or shower permanently connected to a water supply and a waste pipe
- (d) A hot water supply (to a washbasin, a kitchen sink, or bath, or shower) from a heating appliance or boiler which is connected to a piped water supply
- (e) A flush toilet (W.C.) with entrance inside the building
- (f) A flush toilet (W.C.) with entrance outside the building

If part (e) (flush toilet with entrance inside the building) or part (f) (flush toilet with entrance outside the building) was unanswered, with answer 'yes' to the other part, the unanswered part was assumed not to be available.

Cars and Garaging

The head of each private household was asked the following question:—

- (a) How many cars and vans are normally available for use by you or members of your household (other than visitors)?

If none, write 'None'

Note

Include any provided by employers if normally available for use by you or members of your household, but exclude vans used solely for the carriage of goods.

- (b) Show where each car or van is normally kept overnight. If there are more than two vehicles, give answers for only two of them:—

	1st	2nd	
1	<input type="checkbox"/>	<input type="checkbox"/>	In a garage or carport within the grounds of your dwelling
2	<input type="checkbox"/>	<input type="checkbox"/>	In a garage or carport elsewhere
3	<input type="checkbox"/>	<input type="checkbox"/>	Within the grounds of your dwelling but not in a garage or carport
4	<input type="checkbox"/>	<input type="checkbox"/>	On the road, street or verge
5	<input type="checkbox"/>	<input type="checkbox"/>	Elsewhere—please give details

The term car means a car or van taxed wholly or in part as a private vehicle and owned and/or used exclusively by a resident member(s) of the household.

As will be seen from (b) above, information on garaging was collected for up to two cars per household. In the tables dealing with garaging arrangements, the third and subsequent cars were regarded as 'Not stated'. If there was more than one answer given in respect of a car, the lowest numbered answer was selected.

Religion

It was not obligatory to answer the question on religion. The question was worded as follows:—

State the particular Religion, Religious Denomination or Body to which the person belongs. (The term Protestant should not be used alone and the title of any denomination should be given as precisely as possible).

In this classification, religions which differ only or mainly in denominational terminology are generally grouped together, and the figures for the group as a whole are shown under the name by which the group is officially or commonly known. Thus the heading Presbyterian includes United Presbyterian, Trinitarian and Church of Scotland. Church of Ireland is regarded as embracing both Anglican and Episcopalian except for persons so described who had a usual address in England; such persons are classified as Church of England.

Economic Activity

Table 17 sets out a partial classification of the population aged 15 and over by economic position and employment status. Visitors to Northern Ireland are excluded from this table.

The classification is as follows:—

Economic Position—

Economically inactive

Retired means wholly retired from employment and no longer seeking paid work. Married women engaged on unpaid home duties are not regarded as retired but classed as 'Others' economically inactive.

Students are persons in full time attendance at an educational establishment irrespective of whether or not they have part-time or seasonal employment.

Other persons economically inactive—included those persons never in employment and not seeking it. Included are persons of independent means, housewives and others engaged on unpaid domestic duties, the permanent sick or disabled and persons who have spent more than six months in a chronic sick or psychiatric hospital and, but for this, would have been classified as out of employment.

Economically active

In employment means having a job or being self-employed during the week ended 24th April 1971. Temporary, part-time or casual employment is included. Persons absent from their employment due to holidays, strikes, lock-outs, short time working or temporary stoppages are regarded as in employment. Persons off work sick are regarded as in employment if their jobs are waiting for them on return.

Out of employment means seeking work or prevented from seeking work by temporary sickness or having obtained an appointment which has not yet been taken up.

Employment status

Self-employed

Self-employed without employees—includes persons not employed by any person or company and persons working in their own home for an employer (outworkers). All parochial clergy and members of a partnership without paid employee(s) are also included. Domestic servants do not count as employees for determining whether or not a self-employed person has employees.

Self-employed with employees means having one or more employees who are not family workers.

Employees

Managers—includes all employees coded to occupation groups 173-180 (Administrators and Managers), all employees not being self-employed coded to groups 002 (Farmers, farm managers, market gardeners), 115 (Deck, engineering officers and pilots, ship), 138 (Office Managers), 143 (Proprietors and managers, sales), 149 (Finance, insurance brokers, financial agents), 154 (Publicans, innkeepers), 156 (Proprietors and managers boarding houses and hotels), 159 (Restaurateurs) and 171 (Proprietors and managers, services, sport and recreations); persons occupied as managers, persons returned as managers and other persons of equivalent rank whose occupation code is preceded by 'M' in the occupation index and all persons returned as directors of companies, except professional workers with occupation groups, 181, 182, 184, 186, 195-198, 200-205, 209-214 and 217, who are excluded.

Non-private Establishments

Non-private establishments comprise hotels, boarding houses, old people's homes, hospitals and establishments which exist for a functional purpose other than that of providing accommodation. They also include defence establishments and ships at moorings or anchorages or on coastwise voyages. A household originally enumerated as private was re-classified as a non-private establishment where the number of boarders or the number of inmates, patients, staff, etc., was five or more.

The difference between the population enumerated in an area and the population in private households is the number of people enumerated in non-private establishments. This figure can be deduced from the figures contained in Table 4.

Usual Address

The census enumeration forms (except the special forms used for enumeration of Service personnel stationed in naval, army or air force establishments, other than those living in married quarters) contained the following question:—

If the person usually lives here, write 'Here'.
If not write the person's usual address.

The persons regarded as having their usual address in the area of enumeration include:

- (i) Persons enumerated in their own homes, and those enumerated in, and having a settled residence in private lodgings, boarding houses and hotels.
- (ii) Resident domestic staff enumerated at their place of work.
- (iii) Resident staff and persons who were shown to be permanent inmates of homes for old people, homes for terminal care, homes for handicapped persons and homes for persons requiring special care.
- (iv) Persons with no fixed address and persons for whom usual addresses were not stated and which could not be assumed for the census returns.

School children and students living away from home during term time were required to give their home addresses. Members of H.M. Forces not enumerated on the special Forces forms had to give the addresses of their married quarters or other home addresses. Merchant seamen enumerated on vessels and usually living aboard ship were assigned to the countries in which their ships were registered.

For the purpose of these tables the answer to the usual address question was used to determine whether a person was resident in the household or a visitor.

Age

Age is the completed years of age at census date and was calculated from the information given in reply to the question on date of birth.

Pensionable Age

Pensionable age is the minimum age at which a person may receive a National Insurance Retirement Pension—60 for women and 65 for men.

Birthplace

The census question on birthplace was phrased as follows:—

- If born in Northern Ireland write the name of the County of birth.
- If born in 'Belfast', write 'Belfast'.
- If born elsewhere give the present name of the country.

Information on birthplace was coded to counties within Northern Ireland and elsewhere to countries.

If the birthplace of an individual was not stated on the census form, the county or country of birth was assumed only where this could be done with reasonable certainty from other entries on the form.

Large establishments. This includes managers in establishments employing 25 or more persons, including civil servants, local government officials and ships' officers coded as managers, aircraft captains and flight managers.

Small establishments—includes all persons of managerial status not included in the 'Large establishment' category and in particular it includes all farmers, trawler skippers and foresters.

Foremen and Supervisors

This group includes all persons described on the census form as foreman, boss, chargehand, charge-man, gaffer, ganger, headman, overlooker, overman, overseer, supervisor or the equivalent.

Manual supervisors: persons as above supervising manual occupations.

Non-manual supervisors: others.

Apprentices, articed clerks and formal trainees—includes persons undergoing training for a period fixed in advance, leading to recognition as a skilled worker or technician and/or to a recognised technical, commercial or professional qualification or management post. The status of apprentice is only applied to economically active persons in employment.

Family workers. Persons employed by and living in the same household as a relative. Family workers who are managers, foremen, or apprentices are coded as managers, etc., and not as family workers. Professional workers are never coded as family workers.

Other employees. This status is given to all employed persons not elsewhere classified.

Presentation Conventions

A dash (—) indicates that the entry is zero.

A blank indicates that a particular combination of line and column is impossible.

In the presentation of rates, a rate shown as 0 indicates that the actual rate is less than one half of a unit but is not zero.

Administrative Divisions

The administrative divisions for which statistics are presented are those existing at the date of the census. They consist of one municipal borough and three rural districts.

The entire county is combined with part of County Tyrone to form one constituency for elections to the United Kingdom Parliament.

TABLE 1 Area, Buildings for Habitation and Population, 1971

County

Area (Hectares)				Buildings for Habitation				Population
