# 1971 CENSUS

## Programme of Census Reports

**1. A Preliminary Report** on the 1971 Census was published in October, 1971, and contained a brief statistical commentary and provisional figures of the population, private dwellings and private households for all local authority areas (counties, county boroughs, municipal boroughs, urban and rural districts) and population figures for small towns and villages with 50 or more houses but having no defined boundaries.

### **2. County Reports**

Reports were published for each of the Counties of Fermanagh, Tyrone, Londonderry (including Londonderry County Borough), Armagh, Down, Antrim and the County Borough of Belfast. The tables gave figures for counties, local authority areas, wards, district electoral divisions and towns and villages with 50 or more houses. The subjects covered were population and area (hectares); sex, age and marital condition; birthplace; religion; private dwellings, households, tenure and amenities; private motor cars and garaging; economically active persons and their sex and occupational status.

### **3. Summary Tables**

Summary tables gave summaries of the information contained in the County Reports for Northern Ireland. Additionally, this report gave statistics covering the same subjects included in the County Reports for the new local authority areas which became functional on 1st October, 1973.

### **4. Housing and Household Composition Tables**

The Housing Tables contained tabulations, not covered by the County Reports, on dwellings, households, tenure, household amenities, cars and garaging. Most tables referred to Northern Ireland but some tables included figures for local authority areas. The Household Composition Tables provided information on the composition and social and economic characteristics of households.

### **5. Economic Activity Tables**

The Economic Activity Tables will give statistics of the occupied population based on their personal occupation and the employed population classified according to the branches of the industry in which they are employed with reference to age, marital condition, employment status, socio-economic group, etc. Most tables will refer to Northern Ireland but some tables will cover local authority areas.

### **6. Workplace and Transport to Work Tables**

These tables contained details of the resident population and the population employed in each area, the main workplace movements from one area to another and the main means of transport to work used for such movements.

### **7. Migration Tables**

These tables gave statistics of the numbers and characteristics of people who changed their usual residence in the year or in the five years before Census day with the details of their age, sex, marital condition, area of previous residence; and of the number and characteristics of migrant households.

### **8. Religion Tables**

The Religion Tables gave, by the main religious denominations, details of the people by sex, age, marital condition, occupation, industry and socio-economic group; and the numbers and characteristics of households.

### **9. Education Tables**

These tables gave details of the age, sex, occupation and industry of those people who had obtained any academic or vocational qualification and details of the type level and subject of the qualification held.

### **10. Fertility Tables**

The Fertility Tables give statistics derived from information supplied for married women under 60 years of age at Census about the date of marriage and the number and spacing of children born alive to them in marriage.

## FERTILITY TABLES

### General Explanatory Notes

The tables contain statistics derived from information supplied in respect of ever-married women under the age of 60 years at the time of the census, on the date of marriage and the number of children born alive in marriage. The questions put to married women on their date of marriage and whether they had been married more than once, and the questions to widowed, divorced and remarried women asking for the date of their first or only marriage and the date when that marriage ended have been used to identify various groups of women. Information about the intervals between births of children is derived from the dates of birth of children born alive in marriage.

#### Census Population

The 1971 Census population comprises all persons irrespective of their usual address or nationality, who spent census night in the area of enumeration. Members of the Armed Forces (including those of Commonwealth and foreign countries except personnel aboard naval vessels) are included. Persons travelling on census night were enumerated with the population of the district in which they arrived the next day unless they had already been enumerated elsewhere. Persons on vessels at moorings or anchorages in Northern Ireland waters or on board ships on coastwise voyages to Northern Ireland ports were counted as part of the population of the district containing the mooring, anchorage or arrival port. (The enumerated population excludes persons who, although usually resident in the area, spent Census night elsewhere. People on night work were regarded as present in their homes for census purposes).

#### Population covered in this Report

The questions on fertility of marriage were addressed to ever-married women usually resident in Northern Ireland and under 60 years at the date of the Census. The reason for limiting the questions to women under 60 years was to reduce the burden of response for older women who may have had difficulty in giving the precise information required.

#### Fertility Questions

The questions bearing most directly on fertility, in addition to those on sex, age at census and whether single, married, widowed or divorced, were as follows:—

For women aged under 60 who are married, widowed or divorced.					
a. Write the month and year of marriage (the first marriage if married more than once).  b. If the first marriage has ended (by the husband's death or by divorce) write the month and year when it ended. If not ended, write 'Not ended'.  <b>B21</b>	Write the total number of children born alive to her in marriage.  If none, write 'None'.  <b>B22</b>	Enter the month and year of birth of each child born alive to her in marriage: include any who have since died.  Enter the dates in order of birth, starting with the first born.  If she has been married more than once give the dates for the children of all her marriages.  <b>B23</b>			
a. Date of (first) marriage  Month Year  b. Date (first) marriage ended  Month Year			Month	Year	

### **Groups of women identified**

1. **Married Women** (Tables 1 and 5) are women married at the time of the census irrespective of whether they are in their first or later marriage.
2. **Widowed and Divorced Women** (Tables 1 and 5) are women who were widowed or divorced at the time of the census irrespective of the number of times they had been married.
3. **Married Women Married Once Only** (Tables 7, 8, 9 and 12) are women married under 45 whose only marriage was still in existence at census date.
4. **Women with uninterrupted first marriage** (Tables 2, 3, 4, 6, 10 and 11) are women:—
  - (i) whose first or only marriage took place before they were 45 and was still in existence at census date, or
  - (ii) whose first or only marriage took place before they were 45 and lasted until they were 45, irrespective of their marital status at census date.

### **Duration of Marriage**

The duration of marriage of married women (including women married once only and women married more than once) has been obtained by computing the difference in years and months between the date of Census and the date of first or only marriage; for widowed and divorced women, the difference was between the dates of the commencement and termination of the first or only marriage. The duration of marriage of married women married more than once is accordingly inflated by the interval(s) between marriages. Likewise, the duration of marriage of widowed or divorced women is understated by the duration of any marriage(s) after the first marriage ended. Such understatement gives rise to the apparent inconsistency in certain tables of short marriage duration coupled with large families.

### **Age at Marriage**

Age at marriage was calculated by subtracting the date of birth in years and months from the date of first or only marriage, and dropping off the residual months. As regards husbands of women married once only and enumerated with their spouses, age at marriage was calculated by subtracting the date of birth from the wife's date of marriage, notwithstanding that the husband could have been married more than once.

### **Size of Family**

The size of family is the total number of children born alive to a woman in marriage, including any who had died. (The statistics relate to legitimate fertility and are thus intended to exclude any children born before marriage. It is likely, however, that a number of such children have been included in the census returns, and not all of them could be detected and excluded from the tabulations).

### **Fertility Rate**

The fertility rate in Table 3 is the ratio of the number of women in each census age by marriage duration group who had a live-born child or children during the period May 1970 and April 1971 inclusive, per 1,000 total women in the corresponding group in Table 2. The rate in Table 4 represents the number of women in each age at marriage by marriage duration group who had a live-born child or children between May 1970 and April 1971, per 1,000 total women aged under 45 years at Census date in the corresponding group in Table 6.

### **Social Class**

The unit groups of the Occupational Classification are arranged into broad categories to form the Social Classes as follows:—

- I Professional, etc., occupations
- II Intermediate occupations
- III Skilled occupations — non-manual  
manual
- IV Partly skilled occupations
- V Unskilled occupations

The unit groups included in each of these categories have been selected so as to ensure that, so far as possible, each category is homogeneous in relation to the basic criterion of the general standing within the community of the occupations concerned. The criterion is naturally correlated with other factors such as education and economic environment, but it has no direct relationship to the average level of remuneration of particular occupations. Each occupational unit group has been assigned as a whole to a Social Class, and it is not a specific assignment of individuals based on the merits of a particular case.

The Social Class appropriate to any given combination of occupation and employment status (i.e., whether self-employed, manager, foreman or other employee) is derived as follows:—

- (a) each occupation is given a basic Social Class
- (b) persons of foreman status whose Social Class is IV or V are allocated to Social Class III
- (c) persons of manager status are allocated either to Social Class II or III, the latter applying if the basic class is IV or V, except those in occupational unit groups 003, 004 and 006 who are allocated to Social Class II.

### **Socio-economic Groups**

It is intended that each socio-economic group should contain people whose cultural and recreational standards and behaviour are similar. As it is not practicable to ask direct questions about these subjects in a population census, the allocation of occupied persons to socio-economic groups is determined by considering their employment status and occupation.

This classification is normally applied only to economically active persons and retired persons. When extended to cover the remainder of the population “Students” and “Others economically inactive” are shown separately.

The socio-economic groups, with brief definitions, are as follows:—

**(1) Employers and managers in central and local government, industry, commerce, etc.—large establishments**

Persons who employ others or generally plan and supervise in non-agricultural enterprises employing 25 or more persons.

**(2) Employers and managers in industry, commerce, etc.—small establishments**

As in group (1) but in establishments employing fewer than 25 persons.

**(3) Professional Workers—self-employed**

Self-employed persons engaged in work normally requiring qualifications of university degree standard.

**(4) Professional Workers—Employees**

Employees engaged in work normally requiring qualifications of university degree standard.

**(5) Intermediate non-manual workers**

Employees engaged in non-manual occupations ancillary to the professions, not normally requiring qualifications of university degree standard: persons engaged in artistic work and not employing others thereat; self-employed nurses, medical auxiliaries, teachers and work study engineers and technicians are included; and employees (other than managers) engaged in occupations included in group (6), who formally and immediately supervise others engaged in such occupations.

**(6) Junior non-manual workers**

Employees, not exercising general planning or supervisory powers, engaged in clerical, sales and non-manual communications and security occupations, excluding those who have additional and formal supervisory functions (these are included in group 5).

**(7) Personal service workers**

Employees engaged in service occupations caring for food, drink, clothing and other personal needs.

**(8) Foremen and Supervisors—manual**

Employees (other than managers) who formally and immediately supervise others engaged in manual occupations, whether or not themselves engaged in such occupations.

**(9) Skilled manual workers**

Employees engaged in manual occupations which require considerable and specific skills.

**(10) Semi-skilled manual workers**

Employees engaged in manual occupations which require slight but specific skills.

**(11) Unskilled manual workers**

Other employees engaged in manual occupations.

**(12) Own account workers (other than professional)**

Self-employed persons engaged in any trade, personal service or manual occupation not normally requiring training of university degree standard and having no employees other than family workers.

**(13) Farmers—employers and managers**

Persons who own, rent or manage farms, market gardens or forests employing people other than family workers in the work of the enterprise.

**(14) Farmers—own account**

Persons who own or rent farms, market gardens or forests and having no employees other than family workers.

**(15) Agricultural workers**

Employees engaged in tending crops, animals, game or forests, or operating agricultural or forestry machinery.

**(16) Members of Armed Forces**

**(17) Occupation inadequately described**

Full details of the allocation of each occupation to the appropriate Social Class and Socio-economic group are given in "Classification of Occupations", 1970 (HMSO 1970).

**Excluded records**

Of the 286,231 married, widowed and divorced women who should have been included in the fertility tables, a total 12,236 or 4.3 per cent were entirely excluded on the grounds that the fertility questions had not been answered or that the answers were incomplete or obviously inaccurate and could not reasonably be assumed or corrected from other particulars in the returns. Details of the numbers of women thus excluded are as follows:—

Married	Widowed	Divorced	Total
9,209	2,818	209	12,236

**Presentation Conventions**

A dash (—) indicates that the entry is zero.

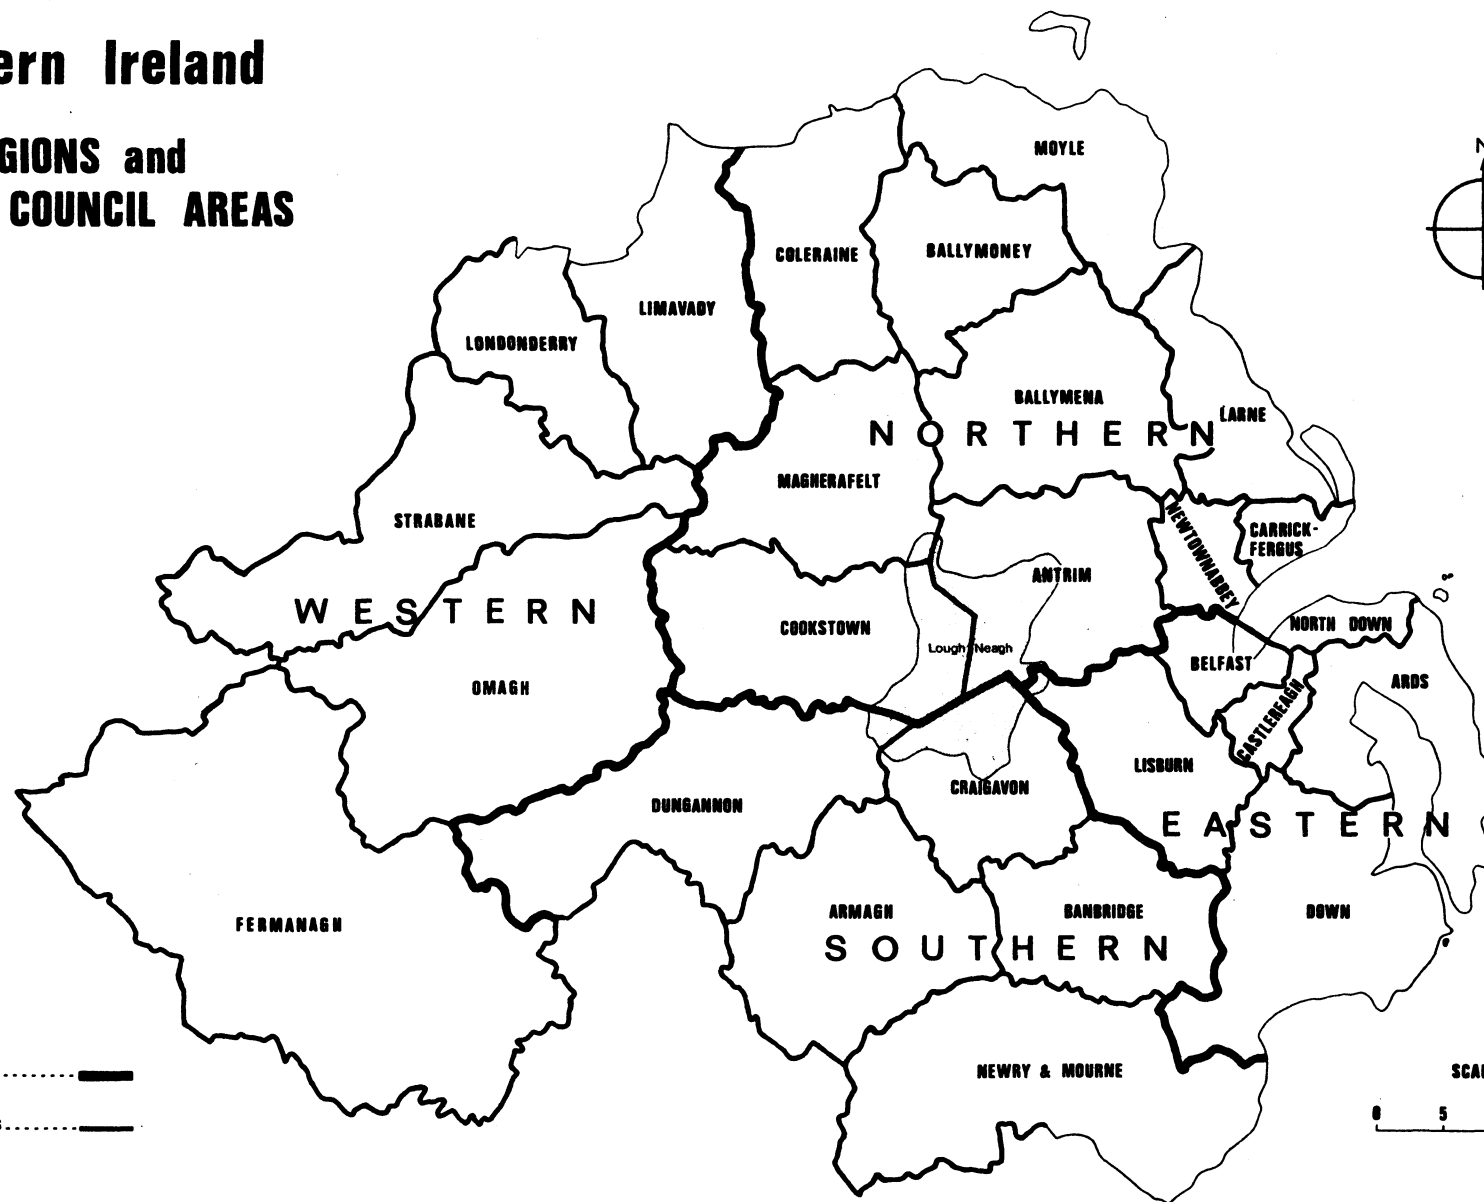

A blank indicates that a particular combination of line and column is impossible.

In the presentation of rates, a rate shown as 0 indicates that the actual rate is less than one half of a unit but is not zero.

## H Form For Private Households

To the Head (or Acting Head) of the Household.

Please complete this form and have it ready for collection on Monday, 26th April. If you need help do not hesitate to ask the enumerator.

The enumerator may ask you any questions necessary to help him to complete or correct the form.

If a house, flat, apartment, etc., is occupied by two or more households, then each occupier must make a separate Return applicable to his accommodation. Boarders are not to be considered as separate occupiers but as part of the household with which they board.

The information you give on the form will be treated as **CONFIDENTIAL** and used only for compiling statistics. No information about named individuals will be passed by the Census Office to any other Government Department or any other Authority or person. If anyone in the census organisation improperly discloses information you provide, he will be liable to prosecution. Similarly you must not disclose information which anyone (for example, a visitor or boarder) gives you to enable you to complete the form.

The legal obligation to fill in the whole form rests on **YOU**, but each person who has to be included is required to give you the information you need. However, anyone who wishes can ask the enumerator or the local Census Officer for an individual form which can be returned direct to the enumerator or local Census Officer and then you need answer only questions B1 and B3 for that person. There is no penalty for refusing to state religious profession.

### PLEASE TAKE NOTE

There are penalties of up to £10 for failing to comply with the requirements described above, or for giving false information.

When you have completed the form, please sign the declaration at the foot of page 5.

**B12 Job last week**

A job means any work for payment or profit. In particular it includes:

- a. work on a person's own account
- b. part-time work if only for a few hours, such as jobbing gardening or paid domestic work
- c. casual, temporary or part-time work of any kind
- d. unpaid work in a family business including a shop or farm.

Unpaid work, other than in a family business does not count as a job. Paid work performed by full-time students in their spare time or during holidays does not count as a job.

**B13 Employer's name and business**

Describe the business fully and try to avoid abbreviations or initials.

General terms such as 'Manufacturer', 'Merchant', 'Agent', 'Broker', 'Dealer', 'Engineering', 'Shopkeeper', are not enough by themselves and further details should be given about the articles manufactured or dealt in.

For civil servants, local government officials and other public officials give the name of the Government department, local authority or public body and the branch in which they are employed.

For people employed solely in private domestic service, write 'Private' in answer to this question.

For members of Armed Forces see special note overleaf.

**B14 Occupation**

Full and precise details of occupation are required.

If a person's job is known in the trade or industry by a special name use that name.

Terms such as 'Scientist', 'Technician', 'Engineer', 'Machinist', 'Fitter', 'Foreman', 'Checker', should not be used by themselves; greater detail is required, for example:

Woodwork machinist, Civil engineer, Toolroom foreman, etc.

For civil servants, local government officials and other public officials give their rank or grade.

**B15 Self-employed**

'Self-employed, employing others', means having one or more employees other than 'Family workers'. A 'Family worker' is one who lives in the same household as the employer and is related to him.

**B16 Apprentices, etc.**

Answer this question only for a person who is undergoing training for a period fixed in advance and leading to recognition as a skilled worker or technician or to a recognised technical, commercial or professional qualification or managerial post.

Do not answer this question for a young person undergoing training who has not yet entered into formal apprenticeship.

**B18 Place of Work**

For people who do not work regularly at one place or who travel during the course of their work (for example, sales representatives, seamen and certain building and transport workers):

- a. if they report daily to a fixed address or depot give that address.
- b. if they do not report daily to a fixed address or depot write 'No fixed place'.

For people such as building workers employed on a site for a long period give the address of the site.

**B19 Means of transport**

If the person uses different means of transport on different days give the means used most often.

Do not use terms such as 'Public transport' or 'Private transport' but give the actual means used, for example, 'Train', 'Public service bus', 'Employer's lorry', 'Car', 'Bicycle'.

If the person walks all or most of the way to work, write 'On foot'.

**Special Note for Members of Armed Forces**

At B13 give arm and branch of service.

At B14 give rank or rating only.

Questions B15, B16, B17 and B20 need not be answered.

**(Answers should be written on the line on which the person's name appears in column B1)**

**Answer questions B13-B15 in respect of the main employment last week, or of the most recent job if retired or out of work.**

For persons who have never had a job and for a housewife who did not have a job last week, write 'None' at B13

<p><b>Did the person have a job last week (the week ended 24th April 1971)?</b> (see note B12)</p> <p>Tick box 1 if the person had a job even if it was only part-time or if the person was temporarily away from work, on holiday, sick, on strike, or laid off.</p> <p>If the person did not have a job, tick whichever of boxes 2, 3, 4 or 5 is appropriate, state the reason if box 5 is ticked (for example, Housewife, Student, Permanently sick).</p>	<p><b>What was the name and business of the person's employer (if self-employed, the name and nature of the person's business)?</b></p> <p><i>Give the trading name if one was used.</i></p> <p>(see note B13)</p>	<p><b>What was the person's occupation?</b></p> <p>Give full details, stating where appropriate, the material worked or dealt in.</p> <p>(see note B14)</p>	<p><b>Was the person an employee, or self-employed employing others (see note B15), or self-employed without employees?</b></p>
