**Background**

Information on overnight and day trips is collected through the Continuous Household Survey. Further information on the survey methodology is available from [www.csu.nisra.gov.uk](http://www.csu.nisra.gov.uk)

An overnight trip includes any trip away from home for at least one night in the UK or Republic of Ireland. For the purposes of this bulletin, trips to the Channel Islands and the Isle of Man have been grouped with GB.

'Other' overnight trips include those attending conferences, exhibitions/trade shows, school trip/education, to do paid work/business, shopping, attending sporting events, and with common interest groups.

A leisure day trip is an outing or trip, not for business purposes, made on the same day from home with no time or distance restriction.

A tourism day trip is a leisure day trip taken outside the respondent's usual environment where they are away from home for more than 3 hours.

**Data revisions**

Tourism estimates are produced to provide timely data to the tourism industry and Government policy makers. The estimates may be subject to revision due to improvements to the survey/analysis methodology or the inclusion of data returned after the publication date. The figures in this document are the most up-to-date available at the time of publication.
